CHAROTAR UNIVERSITY OF SCIENCE AND TECHNOLOGY - CHARUSAT

Accredited with Grade A+ by NAAC, GoI

Education Campus – Changa, (ECC), hitherto a conglomerate of institutes of professional education in Engineering, Pharmacy, Computer Applications, Management, Applied Sciences, Physiotherapy and Nursing, is one of the choicest destinations by students. It has been transformed into Charotar University of Science and Technology (CHARUSAT) through an Act by Government of Gujarat. CHARUSAT is permitted to grant degrees under Section-22 of UGC – Government of India.

The journey of CHARUSAT started in the year 2000, with only 240 Students, 4 Programmes, one Institute and an investment of about Rs. 3 Crores (INR 30 million). At present there are nine different institutes falling under ambit of six different faculties. The programmes offered by these faculties range from undergraduate (UG) to Ph.D degrees. These faculties, in all offer 74 different programmes. A quick glimpse is as under:

Faculty	Institute	Programmes Offered
Faculty of Technology and Engineering	Chandubhai S. Patel Institute of Technology	B.Tech M.Tech Ph.D
Faculty of Pharmacy	Ramanbhai Patel College of Pharmacy	B.Pharm M.Pharm Ph.D PGDCT / PGDPT
Faculty of Management Studies	Indukaka Ipcowala Institute of Management	BBA MBA Ph.D
Faculty of Computer Applications	Smt. Chandaben Mohanbhai Patel Institute of Computer Applications.	BCA MCA M.Sc IT Ph.D BCA
Faculty of Sciences	P.D. Patel Institute of Applied Sciences	B.Sc M.Sc Ph.D
Faculty of Medical Sciences	Ashok and Rita Institute of Physiotherapy	B.PT M.PT Ph.D
	Manikaka Topawala Institute of Nursing	B.Sc (Nursing) P.B. B.Sc. Nursing GNM M.Sc.

		Ph.D
	Bapubhai Desaibhai Patel Institute of Paramedical Sciences	BMIT BSMT BOTAT BOP MSc. MIT MSMLT MSOTAT PGDMLT PGDCH Ph. D

The development and growth of the institutes have already led to an investment of over Rs.150 Crores (INR 1500 Million). The future outlay is planned with an estimate of Rs.250 Crores (INR 2500 Million).

The University is characterized by state-of-the-art infrastructural facilities, innovative teaching methods and highly learned faculty members. The University Campus sprawls over 125 acres of land and is Wi-Fi enabled. It is also recognized as the Greenest Campus of Gujarat.

CHARUSAT is privileged to have 360 core faculty members, educated and trained in IITs, IIMs and leading Indian Universities, and with long exposure to industry. It is also proud of its past students who are employed in prestigious national and multinational corporations.

From one college to the level of a forward-looking University, CHARUSAT has the vision of entering the club of premier Universities initially in the country and then globally. **High Moral Values like Honesty, Integrity and Transparency** which has been the foundation of ECC continues to anchor the functioning of CHARUSAT. Banking on the world class infrastructure and highly qualified and competent faculty, the University is expected to be catapulted into top 20 Universities in the coming five years. In order to align with the global requirements, the University has collaborated with internationally reputed organizations like Pennsylvania State University – USA, University at Alabama at Birmingham – USA, Northwick Park Institute –UK, ISRO, BARC, etc.

CHARUSAT has designed curricula for all its programmes in line with the current international practices and emerging requirements. Industrial Visits, Study Tours, Expert Lectures and Interactive IT enabled Teaching Practice form an integral part of the unique CHARUSAT pedagogy.

The programmes are credit-based and have continuous evaluation as an important feature. The pedagogy is student-centered, augurs well for self-learning and motivation for enquiry and research, and contains innumerable unique features like:

- Participatory and interactive discussion-based classes.
- Sessions by visiting faculty members drawn from leading academic institutions and industry.
- Regular weekly seminars.

- Distinguished lecture series.
- Practical, field-based projects and assignments.
- Summer training in leading organizations under faculty supervision in relevant programmes.
- Industrial tours and visits.
- Extensive use of technology for learning.
- Final Placement through campus interviews.

Exploration in the field of knowledge through research and development and comprehensive industrial linkages will be a hallmark of the University, which will mould the students for global assignments through technology-based knowledge and critical skills.

The evaluation of the student is based on grading system. A student has to pursue his/her programme with diligence for scoring a good Cumulative Grade Point Average (CGPA) and for succeeding in the chosen profession and life.

CHARUSAT welcomes you for a Bright Future.....

CHARUSAT

FACULTY OF MANAGEMENT STUDIES

ACADEMIC REGULATIONS

Bachelor of Business Administration (BBA) – ENVM Programme

To ensure uniform system of education, duration of undergraduate and post graduate programmes, eligibility criteria for and mode of admission, credit load requirement and its distribution between course and system of examination and other related aspects, following academic rules and regulations are recommended.

1. *System of Education*

The Semester system of education should be followed across The Charotar University of Science and Technology (CHARUSAT) both at Undergraduate and Master's levels. Each semester will be at least 90 working day duration. Every enrolled student will be required to take a specified load of course work in the chosen subject of specialization and also complete a project/dissertation if any.

2. *Duration of Programme*

2.1 The Bachelor of Business Administration (BBA) – Entrepreneurship and New Venture Management programme of Charotar University of Science and Technology (CHARUSAT) is a ***three-year full-time*** under-graduate programme, leading to the award of the degree of Bachelor of Business Administration (BBA).

2.2 The span of the programme is six years (as decided by the university from time to time) from the date of registration in the programme.

3. *Eligibility and mode of admissions*

3.1 **Candidate** should have passed 12th standard (or equivalent) examination (any stream) with English as a subject is eligible for admission to the BBA – Entrepreneurship and New Venture Management Programme and according to the regulations for admission decided by CHARUSAT from time to time.

4. *Programme structure and Credits*

4.1 ***A student admitted to a program should study the course and earn credits specified in the course structure.*** The details of programme structure, credit requirements, areas of specialisation proposed to be offered, etc. are presented at Appendix – I.

4.2 *Programme Outcomes (PO)*

Graduates will be able to...

PO1 - Analyse contemporary issues and apply management knowledge for resolution.

PO2 - Practice effective communication and interpersonal skills.

PO3 - Understand Global Perspectives and exhibit Cross-Cultural sensitivity.

PO4 - Demonstrate Attitude for continuous learning and development.

5. Attendance

5.1 All activities prescribed under these regulations and listed by the course faculty members in their respective course outlines are compulsory for all students pursuing the courses. No exemption will be given to any student from attendance except on account of serious personal illness or accident or family calamity that may genuinely prevent a student from attending a particular session or a few sessions. However, such unexpected absence from classes and other activities will require to be condoned by the Dean/Principal.

5.2 Student attendance in every course should be 80%.

6 Course Evaluation

6.1 The performance of every student in each course will be evaluated as follows:

6.1.1 Internal evaluation by the course faculty member(s) based on continuous assessment, for 30% of the marks for the course; and

6.1.2 Final examination by the University through written paper or practical test or oral test or presentation by the student or a combination of these, for 70% of the marks for the course.

6.2 University Examination

6.2.1 The final examination by the University for 70% of the evaluation for the course will be through written paper or practical test or oral test or presentation or a combination of these.

6.2.2 In order to earn the credit in a course, a student has to obtain a grade other than FF.

6.3 Performance at Internal Evaluation Components and University Examination

If a student secures minimum passing marks of 40% in the University examinations in any course but fails to obtain the minimum passing total percentage of 50%, he/she has to repeat the university examination in the course.

Minimum percentage marks in University Exam for pass in any course	Minimum total percentage marks (i.e. internal+ University) for pass in any course
40%	50%

7. Grading

7.1 The total of the internal evaluation marks and final University examination marks in each course will be converted to a letter grade on a ten-point scale as per the following scheme:

Grading Scheme:

Letter Grade	AA	AB	BB	BC	CC	CD	DD	FF
Grade Point	10	9	8	7	6	5	4	0

7.2 The student's performance in any semester will be assessed by the Semester Grade Point Average (SGPA). Similarly, his performance at the end of two or more consecutive semesters will be denoted by the Cumulative Grade Point Average (CGPA). The SGPA and CGPA are calculated as follows:

(i) $SGPA = \frac{\sum C_i G_i}{\sum C_i}$ where C_i is the number of credits of course i
 G_i is the Grade Point for the course i
 and $i = 1$ to n , n = number of courses in the semester

(ii) $CGPA = \frac{\sum C_i G_i}{\sum C_i}$ where C_i is the number of credits of course i
 G_i is the Grade Point for the course i

and $i = 1$ to n , n = number of courses of all semesters up to which CGPA is computed.

(iii) No student will be allowed to move to the second academic year if his/her CGPA is less than 3 at the end of the first academic year.

(iv) in addition to above, a student has to comply with the requirements of the regulatory bodies, wherever such requirements exist.

(v) A student will have a maximum of four chances* after first appearing in that examination to clear that course, subject to the restriction on the span period stipulated in clause 2.2 above.

*(*Whenever the university conducts the examinations of that course, it will be considered as a chance, irrespective of whether the student appears for the examination or not.)*

8. Awards of Bachelor Degree

8.1 Every student of the programme who fulfils the following criteria will be eligible for the award of the degree:

8.1.1 He should have earned at least minimum required credits as prescribed in course structure.

8.2 Any student who fails to satisfy minimum requirement of CGPA will be allowed to improve the grades so as to secure a minimum CGPA for the award of degree.

9. Award of Class:

The class awarded to a student in the programme is decided by the final CGPA as per the following scheme:

First Class with Distinction	= CGPA of 7.50 and above
First Class	= CGPA of 6.00 to 7.49
Second Class	= CGPA of 5.00 to 5.99

10 Transcript:

The transcript issued to the student at the time of leaving the University will contain a consolidated record of all the courses taken, credits earned, grades obtained, SGPA, CGPA and class obtained.

Appendix – I

Details of BBA – Entrepreneurship and New Venture Management Programme Structure, Credit Requirements and Specialisation

A1. Programme Structure

- A1.1 The programme is structured into *six semesters*, consisting of classroom contact-based work and *Organization Attachment Programme*.
- A1.2 Each semester will be for a minimum of *90 working days* for classroom work, covering classroom contact sessions, laboratory/tutorial/library/group work, case discussions and presentation, field-based as well as library/internet search-based assignments and projects, classroom exercises, management and simulation games, short quizzes, and class tests. The duration for any organizational attachment/training during the semester and final University examinations will be in addition to the 90 working days.
- A1.3 *Organization Attachment Programme* will be for a minimum duration of 45 working days and will commence at the end of the fourth semester classroom work.
- A1.4 The structure of the BBA - ENVM programme is as shown in the following figure:

Figure A1: BBA - ENVM Programme Structure

A2. Credits

- A2.1 Any student of the BBA – Entrepreneurship and New Venture Management programme who earns 134 credits by pursuing the prescribed course work and passing all tests, examinations, assignments, laboratory work, projects and all other evaluation components as per the passing standards of the University will be eligible for the award of the Bachelor of Business Administration (BBA).

- A2.2 The current distribution of credits over the Three-year period for classroom contact sessions and laboratory/ tutorial/ library/ group work sessions will be as follows:

TableA2: Semester-wise Distribution of Credits

Sl. No.	Semester	Number of Credits
1	Semester - 1	20
2	Semester - 2	20
3	Semester - 3	24
4	Semester - 4	22
5	Semester - 5 (Including Organization Attachment Programme) (20+4)	22
6	Semester - 6	20
	Total Credits	128

A3. Courses, Curricula and Revision

- A3.1 The Faculty Board of the Faculty of Management Studies and the Dean of the Faculty of Management Studies will keep the curricula current and in tune with the changes happening in the world of management and make it relevant to the needs of different organs of society.
- A3.2 The review of the programme, its structure, the course curricula, pedagogy and evaluation will be undertaken by the individual Boards of Studies at least once in every two years.

SYLLABI

(Semester – III)

CHAROTAR UNIVERSITY OF SCIENCE AND TECHNOLOGY

BME301: FINANCIAL MANAGEMENT
YEAR 2, SEMESTER – III

Credit	Component	Instruction/ Contact/ Practical Hours (Per Week)	Instruction/ Contact/ Practical Hours (Per Course)
04	Theory	04	60

Rationale

Financial management provides pathways to attain goals and objectives in an organization. The key role of a financial manager is to measure organizational efficiency through proper allocation, acquisition and management. It assists in acquiring funds from different sources. Helps in investing an appropriate amount of funds. Financial management assists in increasing organizational efficiency. Enabling the management in cutting down financial costs by reducing cost of funds, it helps in achieving financial goals of an organization. CFO/Finance Manager always ensures optimum utilization of funds. It helps business firm to take financial decisions and preparing guidelines for earning maximum profits with minimum cost. Management gets significant information through financial reporting

Course Pedagogy

The course will emphasize self-learning and active classroom interaction based on students' prior preparation. The course instructor is expected to prepare a detailed session-wise schedule, showing the topics to be covered, the reading material and case material for every session. Wherever the material for any session is drawn from sources beyond the prescribed text-book, reference books, journals and magazines in the library, or from websites and other resources not accessible to the students, the course instructor should make the material available to the students well in advance, so that the students can come prepared for the classes. The pedagogical mix will consist of classroom sessions, assignments, presentations, management exercises or games/simulations or activities and student feedback.

Course Outline

Module Number	Title of the Module	Contact Hours
1	Introduction to Financial Management	07
2	Business Finance	09
3	Cost of Capital	11
4	Leverage Analysis	11
5	Financial Statement Analysis	10
6	Investment Appraisal	12
Total Contact Hours		60

Course Syllabus

Module 1: Introduction to Financial Management

07 hours

Forms of business Organization, Financial decisions, Scope of financial Management, Profit maximization objective vs. wealth maximization objective

Module 2: Business Finance

09 hours

Short term Sources of Raising Finance, Long term Sources of Raising Finance, Modern Sources of Funds

Module 3: Cost of Capital

11 hours

Meaning and significance of cost of capital, Explicit cost and Implicit cost, Cost of Debt, Cost of Preference Shares and Cost of Equity, Weighted Average cost of capital (WACC)

Module 4: Leverage Analysis

11 hours

Meaning and concept of Leverage, Benefits and Drawbacks of Leverage, Computation and inferences of Degree of Operating Leverage, Financial Leverage and Combined Leverage

Module 5: Financial Statement Analysis

10 hours

Comparative Statements, Common Size Statements, Trend Analysis

Module 6: Investment Appraisal

12 hours

Evaluating Investment Proposals for decision Making, Non-Discounted cash flow methods, Discounted cash flow methods

Course Evaluation

I. Continuous and Comprehensive Evaluation (30 Marks)

Component	Marks
Quiz	80
Assignment/ Project/ Presentation	90
Online Course	60
Internal Examination	40
Participation	30
Total marks (CCE)	300

II. Semester End Evaluation (70 Marks):

- University Examination will be carried out at the end of the semester.
- Theory examination will be for 3 hours based on written paper for 70 marks.

Text Book:

1. Prasanna Chandra, Fundamentals of Financial Management (Latest edition), Tata McGraw Hill

Reference Books:

1. Khan and Jain, Financial Management (Latest edition), Tata McGraw Hill
2. I.M. Pandey, Financial Management (Latest edition), Vikas Publishing House
3. Shashi K. Gupta, R.K. Sharma, Financial Management Theory and Practice (Latest edition), Kalyani Publishers

Programme Outcomes: Upon successful completion of the course, students will be,

PO1	Analyze contemporary issues and apply management knowledge for resolution.
PO2	Practice effective communication and interpersonal skills.
PO3	Understand Global Perspectives and exhibit Cross-Cultural sensitivity.
PO4	Demonstrate Attitude for continuous learning and development.

Course Outcomes: Upon successful completion of the course, students will be,

CO1	Understanding important financial decisions concerning; financing, investing, dividend, and liquidity.
CO2	Potential to make decisions with regard to maximizing wealth.
CO3	Assists organizations in planning, acquisition and optimum utilization of funds.
CO4	Analyzing and interpreting financial statements to provide an optimum business solution.
CO5	Effective investment appraisal through several tools and techniques enabling the organization to achieve its long-term goals.

04	Theory	04	60

Rationale

Activities of Human Resource Management begins prior to the entry of individuals in an organization and continues till the person leaves the organization. This course will enable students to understand the basic concepts and processes of human resource management in any organization. Students will acquire knowledge of basic HRM functions such as recruitment, selection, performance appraisal, reward and recognition etc

Course Pedagogy

The course will emphasize self-learning and active classroom interaction based on students' prior preparation. The course instructor is expected to prepare a detailed session-wise schedule, showing the topics to be covered, the reading material and case material for every session. Wherever the material for any session is drawn from sources beyond the prescribed text-book, reference books, journals and magazines in the library, or from websites and other resources not accessible to the students, the course instructor should make the material available to the students well in advance, so that the students can come prepared for the classes. The pedagogical mix will consist of classroom sessions, assignments, presentations, management exercises or games/simulations or activities and student feedback.

Course Outline

Module Number	Title of the Module	Contact Hours
1	Need and Concept of HRM	10
2	Human Resource Planning	10
3	Recruitment	10
4	Employee Training and Development & Performance Appraisal	10
5	Compensation Planning	10
6	Industrial Relations	10
Total Contact Hours		60

Course Syllabus

Module 1: Need and Concept of HRM

10 hours

Concept, Philosophy, and Evolution of HRM, Functions and Scope of HRM, Human Resource Policies, Importance and Objectives

Module 2: Human Resource Planning

10 hours

Concept, Need, Responsibility for HR Planning, Assessing Human Requirements, Human Resource Forecasting, Job Analysis, Job Description and Job Specification.

BME304: IMAGE MANAGEMENT AND PERSONAL BRANDING YEAR 2, SEMESTER – III

Credit	Component	Instruction/ Contact/ Practical Hours (Per Week)	Instruction/ Contact/ Practical Hours (Per Course)
04	Practical	04	60

Rationale

This course will explore the approaches towards Image and Personal Branding as the two notions may seem quite similar but they are not. Though the concept of personal branding isn't new, questions remain about how to create one and, more importantly, what it means to maintain and inhabit that brand. Corporate Image analysis centres on the public's perception of a company and its products. Preconceived ideas and prejudicial structures form in customers over time. Their perceptions do not always, in fact rather seldom, reflect a corporation's desired and true profile, but to the public it becomes reality. It is up to Management and in particular its CEO to ensure that initial and continuous public impressions of the company are well structured and supported to result into a positive force enhancing the corporation's business prospects in the market and vis-à-vis its competition.

Course Pedagogy

The course will emphasize self-learning and active classroom interaction based on students' prior preparation. The course instructor is expected to prepare a detailed session-wise schedule, showing the topics to be covered, the reading material and case material for every session. Wherever the material for any session is drawn from sources beyond the prescribed text-book, reference books, journals and magazines in the library, or from websites and other resources not accessible to the students, the course instructor should make the material available to the students well in advance, so that the students can come prepared for the classes. The pedagogical mix will consist of classroom sessions, assignments, presentations, management exercises or games/simulations or activities and student feedback.

CHAROTAR UNIVERSITY OF SCIENCE AND TECHNOLOGY (CHARUSAT)
FACULTY OF HUMANITIES (FOH)
Semester- III

HS121.02 D: CREATIVITY, PROBLEM SOLVING AND INNOVATION

Credits and Hours:

Teaching Scheme	Theory	Practical	Tutorial	Total	Credit
Hours/week	--	02	--	02	2
Marks	--	100	--	100	

Pre-requisite courses:

Creative Problem Solving

<https://www.coursera.org/learn/creative-problem-solving>

Objectives of the Course:

To facilitate learners to:

- gain familiarity with the mechanics of creativity and problem solving.
- develop an attitude for innovation.
- develop creative thinking skills using cone of learning components leading to understanding of strategies of creativity, problem solving and innovation.
- explore applications of the concepts of creativity and problem-solving skills in personal, social, academic, and profession life.

Outline of the Course:

Sr. No.	Title of the unit	Minimum number of hours
1.	Introduction to Creativity, Problem Solving and Innovation	06
2.	Questioning, Learning and Visualization	06
3.	Creative Thinking and Problem Solving	06
4.	Logic, Language and Reasoning	06
5.	Contemporary Issues and Practices in Creativity and Problem Solving	
	Total hours (Theory):	--
	Total hours (Practical):	30
	Total hours (Lab) :	--
	Total hours :	30

Detailed Syllabus:

1.	Introduction to Creativity, Problem Solving and Innovation	06 Hours	20%
	Definitions of Creativity and Innovation, Need for Problem Solving and Innovation, Scope of Creativity in various Domains, Types and Styles of Thinking, Strategies to develop Creativity, Problem Solving and Innovation skills		
2.	Questioning, Learning and Visualization	6 Hours	20%
	Strategy and Methods of Questioning, Asking the Right Questions, Strategy of Learning and its Importance, Sources and Methods of Learning, Purpose and Value of Creativity Education in real life, Visualization strategies - Making thoughts Visible,		

	Mind Mapping and Visualizing Thinking		
3.	Creative Thinking and Problem Solving	6 Hours	20%
	Creative Thinking and its need, Strategy of Thinking Fluency, Generating all Possibilities, SCAMPER Technique, Divergent Vs Convergent Thinking, Lateral Vs Vertical Thinking, Fusion of Ideas for Problem Solving, Applying strategies for Problem Solving		
4.	Logic, Language and Reasoning	6 Hours	20%
	Basic Concepts of Logic, Statement Vs Sentence, Premises Vs Conclusion, Concept of an Argument, Functions of Language: Informative, Expressive and Directive, Inductive Vs Deductive Reasoning, Critical Thinking & Creativity, Moral Reasoning		
5.	Contemporary Issues and Practices in Creativity and Problem Solving	6 Hours	20%
	Cognitive Research Trust Thinking for Creatively Solving Problems, Case Study on Contemporary Issues and Practices in Creativity and Problem Solving		

Instruction Methods and Pedagogy

The course is based on practical learning. Teaching will be facilitated by Slides Presentations, Reading Material, Discussions, Case Studies, Puzzles, Ted Talks, Videos, Task-Based Learning, Projects, Assignments and various Individual and Interpersonal activities like, Critical reading, Group work, Independent and Collaborative Research, Presentations, etc.

Evaluation:

There will be no end semester university examinations. Students will be evaluated continuously in the form of internal as well as external evaluation. The evaluation is schemed as 30 marks for internal evaluation and 70 marks for external evaluation. The concerned teacher shall evaluate students distribute the marks (out of 30 as Internal and out of 70 as External) and submit them.

Evaluation Scheme

The students' performance in the course will be evaluated on a continuous basis through the following components:

Sl. No.	Component	Number	Marks per incidence	Total Marks
1	Attendance	100 %	--	20
2	Individual Activity Participation	As stipulated by the Resource Person(s) in the Training		20
3	Group Activity Participation			20
4	Presentation			30
5	Feedback on Improvement			10
Total				100

Course Outcome (COs):

At the end of the course, the students will be able to

CO1	Demonstrate creativity in their day to day activities and academic output.
CO2	Solve personal, social and professional problems with a positive and an objective mindset.
CO3	Think creatively and work towards problem solving in a strategic way.
CO4	Initiate new and innovative practices in their chosen field of profession.
CO5	Give logical ideas, opinions, and solutions to problems.
CO6	Think critically over the situation and drawing conclusion.

**BM231: BANKING AND INSURANCE
YEAR 2, SEMESTER – III**

Credit	Component	Instruction/ Contact/ Practical Hours (Per Week)	Instruction/ Contact/ Practical Hours (Per Course)	Course Classification
02	Practical	02	30	University Elective

Rationale

Banking and Insurance sector witness a robust growth in the financial service market. Due to advent of digital technologies coupled with favourable regulatory environment, financial institutions have developed capabilities to offer wide variety of products and services to the customers. This course will enable the students to understand the different banking and insurance products and services along with brief overview of banking and insurance sector outlook in India.

Course Pedagogy

The course will emphasize self-learning and active classroom interaction based on students' prior preparation. The course instructor is expected to prepare a detailed session-wise schedule, showing the topics to be covered, the reading material and case material for every session. Wherever the material for any session is drawn from sources beyond the prescribed text-book, reference books, journals and magazines in the library, or from websites and other resources not accessible to the students, the course instructor should make the material available to the students well in advance, so that the students can come prepared for the classes. The pedagogical mix will consist of classroom sessions, assignments, presentations, management exercises or games/simulations or activities and student feedback.

Course Outline

Module Number	Title of the Module	Contact Hours
1	Introduction to Indian Banking Sector	05
2	Bank Management	05
3	Overview of Retail Banking	05
4	Payment and Settlement System	05
5	Introduction to Insurance Sector	05
6	Marketing of Banking and Insurance Services	05
Total Contact Hours		30

Course Syllabus

Module 1: Introduction to Indian Banking Sector

05 hours

Evolution of Banking, Reserve Bank of India and its roles in Indian financial sector, Brief Structure of Banks, Commercial Banking and Universal Banking, Types of Customers

Module 2: Bank Management

05 hours

Sources and Uses of Funds in Banks, Value Chain Analysis in Banking Industry, Leveraging New Technologies in Banking, Methods of Credit Control & Credit Creation, Financial Statements of Bank

Module 3: Overview of Retail Banking

05 hours

Retail Banking – Concept and Importance, Retail Banking Products (Liability focused segment), Retail Banking Products (Asset focused segment)

Module 4: Payment and Settlement System

05 hours

Payment & Settlement System – New Age Clearing (SI, ECS), Payment & Settlement System – National Gateways (RTGS, NEFT), Digital Financial Services: Unified Payments Interface (UPI), Digital Wallets (E-Wallets), IMPS etc.

Module 5: Introduction to Insurance Sector

05 hours

Concept of Insurance: Relevance of Insurance, IRDAI and Its role, Principles of Insurance, Types of Insurance services (Life Insurance and General Insurance), Different product offerings under life and general insurance and its tax implications.

Module 6: Marketing of Banking and Insurance Services

05 hours

Marketing Strategy of Banking and Insurance Services, SERVQUAL Model, Role of technologies in Banking and insurance service offerings

Course Evaluation

I. Continuous and Comprehensive Evaluation (30 Marks)

- The Internal Evaluation component shall be shared by the course coordinator.

II. Semester End Evaluation (70 Marks):

- University Examination will be carried out at the end of the semester.
- Practical examination will be based on project or report presentation and viva-voce examination or software based analysis depending on the nature of the course.

Text Book:

1. Indian Institute of Banking and Finance, Principles and Practices of Banking (Latest Edition), Macmillan Education, ISBN: 978-9387687240.

Reference Books:

1. Indian Institute of Banking and Finance, Retail Banking, (Latest Edition), Macmillan Education, ISBN: 978-9388175838
2. Indian Institute of Banking and Finance, Bank Financial Management, (Latest Edition), Macmillan Education, ISBN: 978-9387000650

Programme Outcomes: Upon successful completion of the course, students will be,

PO1	Analyze contemporary issues and apply management knowledge for resolution.
PO2	Practice effective communication and interpersonal skills.
PO3	Understand Global Perspectives and exhibit Cross-Cultural sensitivity.
PO4	Demonstrate Attitude for continuous learning and development.

Course Outcomes: Upon successful completion of the course, students will be,

CO1	Understand the basic concept of banking and insurance as a financial intermediation service and bank/insurance companies as a financial institution.
CO2	Explore various functions and services offered by banking and insurance companies
CO3	Analyze the financial statements of banks for decision making
CO4	Explore the role of technology in banking and insurance product offerings and marketing.

SYLLABI

(Semester – IV)

CHAROTAR UNIVERSITY OF SCIENCE AND TECHNOLOGY

BME401: FUNDAMENTALS OF RESEARCH
YEAR 2, SEMESTER – IV

Credit	Component	Instruction/ Contact/ Practical Hours (Per Week)	Instruction/ Contact/ Practical Hours (Per Course)
04	Theory	04	60

Rationale

Managers have to deal with important decision making. Decision making is a complex process of choosing the alternative solution to resolve any problem and in this problem solving, research play important role to help and generate viable alternatives for effective decision making. This curriculum course structure of ‘Fundamentals of Research’ is developed such that the student would be able to evaluate, identify the critical issues, gathering relevant information, analysing the data that would help in effective decision making and implementing the right course of action.

Course Pedagogy

The course will emphasize self-learning and active classroom interaction based on students’ prior preparation. The course instructor is expected to prepare a detailed session-wise schedule, showing the topics to be covered, the reading material and case material for every session. Wherever the material for any session is drawn from sources beyond the prescribed text-book, reference books, journals and magazines in the library, or from websites and other resources not accessible to the students, the course instructor should make the material available to the students well in advance, so that the students can come prepared for the classes. The pedagogical mix will consist of classroom sessions, assignments, presentations, management exercises or games/simulations or activities and student feedback.

Course Outline

Module Number	Title of the Module	Contact Hours
1	Introduction to Research	09
2	Defining the Research Problem	11
3	Research Design	12
4	Sampling and Questionnaire Design and Construction	11
5	Measurement and Scaling, Data Collection and Preparation	12
6	Data Analysis with SPSS and Application of Research, Report Writing	05
Total Contact Hours		60

Course Syllabus

Module 1: Introduction to Research

09 hours

Meaning and Definition of Research, Objectives and Significance of Conducting Research, Types of Research, Typical Research Process, General Problems encountered by Researcher while conducting research, Criteria of Good Research, Literature Review and its Importance.

Module 2: Defining the Research Problem

11 hours

Understanding The Meaning of Research Problem, Research Field, Research Area and Research Topic, Identifying and selecting the research problem, Techniques Involved in Defining a Problem.

Module 3: Research Design

12 hours

Meaning and need of research design, Good Research design characteristics features, Important concepts related to research design, Types of research and related research design, Special Case of Experimental Research Design, Basic Principles and types of Experimental design.

Module 4: Sampling Design

11 hours

Introduction to sampling and sampling design, Sampling framework and important considerations, Types of sampling design, Sampling and Non sampling error.

Module 5: Measurement and Scaling, Data Collection and Preparation

12 hours

Qualitative and Quantitative Data and Measurement Scale, Classifications of Measurement Scale and its Bases, Techniques of Developing Measurement Scale, Goodness of Measurement Scale and Possible Sources of Measurement Scale, Questionnaire Designing, And different Approaches of data collection, Qualitative and Quantitative method of data collection Data Preparation (Editing, Coding, Classification, Tabulation)

Module 6: Data Analysis with SPSS and Application of Research, Report Writing

05 hours

Descriptive data analysis, Hypothesis testing Correlation, Chi-Square test, Analysis of Variance, Linear Regression analysis, Significance of Report Writing, Types of report writing, Steps in report writing

Course Evaluation

I. Continuous and Comprehensive Evaluation (30 Marks)

Component	Marks
Quiz	80
Assignment/ Project/ Presentation	90
Online Course	60
Internal Examination	40
Participation	30
Total marks (CCE)	300

II. Semester End Evaluation (70 Marks):

- University Examination will be carried out at the end of the semester.
- Theory examination will be for 3 hours based on written paper for 70 marks.

Text Book:

1. Kothari and Gaurav Garg, Research Methodology Methods and Technique, New Age International (P) Ltd, ISBN-13 978-9386649225

Reference Books:

1. Bryman Alan, Bell Emma, Business Research Methods, Oxford University Press, ISBN: 9780199668649.
2. Zikmund, Babin, Carr, Adhikari, Griffin, Business Research Methods, A South Asian Perspective, Cengage Learning, ISBN: 9781111826925

Programme Outcomes: Upon successful completion of the course, students will be,

PO1	Analyze contemporary issues and apply management knowledge for resolution.
PO2	Practice effective communication and interpersonal skills.
PO3	Understand Global Perspectives and exhibit Cross-Cultural sensitivity.
PO4	Demonstrate Attitude for continuous learning and development.

Course Outcomes: Upon successful completion of the course, students will be,

CO1	Understand the Use of the research and literature review in understanding the problem situation
CO2	Interpret the information available in the problem situation
CO3	Evaluate companies' failure due to lack of research, thus the importance of research and other ways of obtaining the answers to the problems.
CO4	Evaluate the research design and appropriateness of the sampling design in a given context.
CO5	Interpret and choose the findings as a best solution to the identified problem.

BME402: PROJECT MANAGEMENT AND OPERATIONS RESEARCH YEAR 2, SEMESTER – IV

Credit	Component	Instruction/ Contact/ Practical Hours (Per Week)	Instruction/ Contact/ Practical Hours (Per Course)
04	Theory	04	60

Rationale

This course will explore the approaches and analyze strategic decisions in project management with a focus on designing products and processes, allocating scarce resources to strategic alternatives, and do long-range capacity and facility planning. These operations functions help in achieving the organization's long-range objectives. Project Management has emerged as a distinct area of management practices to meet the challenges of new economic environment, globalization process, rapid technological advancement, and quality concerns of the stakeholders. Operations research is an operations management strategy that uses mathematical methods to find the right decision among a series of potentials.

Course Pedagogy

The course will emphasize self-learning and active classroom interaction based on students' prior preparation. The course instructor is expected to prepare a detailed session-wise schedule, showing the topics to be covered, the reading material and case material for every session. Wherever the material for any session is drawn from sources beyond the prescribed text-book, reference books, journals and magazines in the library, or from websites and other resources not accessible to the students, the course instructor should make the material available to the students well in advance, so that the students can come prepared for the classes. The pedagogical mix will consist of classroom sessions, assignments, presentations, management exercises or games/simulations or activities and student feedback.

Course Outline

Module Number	Title of the Module	Contact Hours
1	Introduction to Project Management	08
2	Project Analysis, Selection and Scheduling	12
3	Project Appraisal and Implementation	10
4	Linear Programming	10
5	Transportation and Assignment Problem	10
6	Queuing System	10
Total Contact Hours		60

Course Syllabus

Module 1: Introduction to Research

09 hours

Introduction to Project, Project Management, Projects and the Business Environment, Project Life Cycle, The Project Manager's Role and Responsibilities, Project Organizations.

Module 2: Defining the Research Problem

11 hours

Project Initiation and resource allocation, Market analysis, Demand analysis, Technical Analysis, Project Network, Representation, Network Diagram, Project Plan, Work breakdown structure.

Module 3: Research Design

12 hours

Financial Evaluation, Economic, Commercial, Social Cost Benefit analysis, Risk and Uncertainty, Project Control, Project Report, Project Termination.

Module 4: Sampling Design

11 hours

Definition, characteristics of LP, Problem formulation, Graphical solution, Simplex method

Module 5: Measurement and Scaling, Data Collection and Preparation

12 hours

Transportation problem: Formulation, optimal solution, Balanced transportation problem, Assignment problem, formulation, optimal solution, variants of assignment

Module 6: Data Analysis with SPSS and Application of Research, Report Writing

05 hours

Essential Features of a Queuing System, Performance Measures of a Queuing System, Classifications of Queuing Models and Their Solutions.

BME403: NEW VENTURE AND FINANCIAL MANAGEMENT
YEAR 2, SEMESTER – IV

Credit	Component	Instruction/ Contact/ Practical Hours (Per Week)	Instruction/ Contact/ Practical Hours (Per Course)
04	Theory	04	60

Rationale

Financial management plays a vital role in new ventures. Without knowledge of various sources of funding it is difficult for a startup to make a successful venture. Entrepreneurs has to deal with various financial management issues in a new venture they have to equip themselves with various financial tools and techniques and design strategies to achieve the goal of the organization. This curriculum course structure is developed such that it makes familiarized with the concepts and practical applications of finance and equip students with various financial tools to plan, organize, direct, and control the financial activities of a new venture. Decision Making is one of the vital skill which a manager come across while handling the routine tasks. Along with the decision making, a Manager is expected to have certain abilities which involves critical and logical way of thinking. This course Logical Analysis and Decision Making will accustom students to analyze day-to-day tasks and will develop students as managers with independent, self-directed thinking.

Course Pedagogy

The course will emphasize self-learning and active classroom interaction based on students' prior preparation. The course instructor is expected to prepare a detailed session-wise schedule, showing the topics to be covered, the reading material and case material for every session. Wherever the material for any session is drawn from sources beyond the prescribed text-book, reference books, journals and magazines in the library, or from websites and other resources not accessible to the students, the course instructor should make the material available to the students well in advance, so that the students can come prepared for the classes. The pedagogical mix will consist of classroom sessions, assignments, presentations, management exercises or games/simulations or activities and student feedback.

Course Outline

Module Number	Title of the Module	Contact Hours
1	Introduction to Financial Management in New Ventures	10
2	Time value of money and capital budgeting	10
3	Entrepreneurial finance	10
4	Financing Decisions	10
5	Working Capital Management	10
6	Payout Policy	10
Total Contact Hours		60

Course Syllabus

Module 1: Introduction to Financial Management in New Ventures **10 hours**

Profit vs. Wealth Maximization, Finance Decisions – Investing Financing, and Dividend decisions, Role of Financial Manager, The Financial System, Risk and Return trade-off

Module 2: Time value of money and capital budgeting **10 hours**

The Time Value of money, Techniques of Capital Budgeting, NPV, IRR, ARR and Payback, Basics of Cost of Capital, Cost of Debt, Equity and Preference

Module 3: Entrepreneurial finance **10 hours**

Traditional sources of finance, Venture capital financing and angel financing, Crowd funding, Seed financing, Private equity and Buyouts

Module 4: Financing Decisions **10 hours**

Financing and Operating Leverage, Capital Structure Theory and Policy, Raising Long Term Funds

Module 5: Working Capital Management **10 hours**

Determinant of Working Capital, Working Capital Policy, Operating Cycle and Cash Cycle, Cash Management, Credit Management, Inventory Management, Sources of Short Term Funds

Module 6: Payout Policy **10 hours**

Dividend Policy & Firm Value, Dividend Theories and Models, Dividend Decision, Bonus Shares and Stock Split, Share buyback

BME404: SEMINAR ON CONTEMPORARY ISSUES IN ENTREPRENEURSHIP YEAR 2, SEMESTER – IV

Credit	Component	Instruction/ Contact/ Practical Hours (Per Week)	Instruction/ Contact/ Practical Hours (Per Course)
04	Practical	04	60

Rationale

Entrepreneurs are persons, who create new events, organize factors of production, undertake risk and handle economic uncertainty involved in new venture. Entrepreneurship education is one of the most paramount in the 21st century, because of the employment crisis, financial crisis, social crisis, political crisis, insurgency and other social vices in Indian society and other parts of the world. Graduates are no longer regarded as 50s, 60s, 70s and 80s graduates where jobs are already waiting for them before graduation. Technology remains flourishing now and new researchers keep on inventing every single day. The new generation we call e-generation entrepreneurs should be updated with the recent issues in business startups or for expansion of existing businesses.

Course Pedagogy

The course will emphasize self-learning and active classroom interaction based on students' prior preparation. The course instructor is expected to prepare a detailed session-wise schedule, showing the topics to be covered, the reading material and case material for every session. Wherever the material for any session is drawn from sources beyond the prescribed text-book, reference books, journals and magazines in the library, or from websites and other resources not accessible to the students, the course instructor should make the material available to the students well in advance, so that the students can come prepared for the classes. The pedagogical mix will consist of classroom sessions, assignments, presentations, management exercises or games/simulations or activities and student feedback.

Course Outline

Module Number	Title of the Module	Contact Hours
1	Contemporary Business Challenges	10
2	Areas of Sustainable Development	05
3	Recent Leanings of Finances in the Business World	05
4	Social Entrepreneurship	15
5	Venture Management Opportunities	10
6	Research in Administration	05
Total Contact Hours		60

Course Syllabus

Module 1: Contemporary Business Challenges **10 hours**
Introduction to business Start-ups, Demographics of Business, Technological Change, Political Influence in Business

Module 2: Areas of Sustainable Development **05 hours**
Innovation and Creativity in Business, Women Entrepreneurship, Business Continuity, Risk & Crisis Management

Module 3: Recent Leanings of Finances in the Business World **05 hours**
Financial Innovations – Crowdfunding, Financial Innovations – FinTech Applications, Analytics and Predictive Technologies, Use of Technology in Innovation

Module 4: Social Entrepreneurship **15 hours**
Social Entrepreneurship Framework, Source of Social Entrepreneurship, Boundaries of Social Entrepreneurship, The Gramin Bank, SEWA

Module 5: Venture Management Opportunities **10 hours**
Building new venture capital, Retention and Expansion Strategies, Product Road map, Developing Organizational capabilities, Managing and streamlining financial and legal processes.

Module 6: Research in Administration **15 hours**
Commitment to Positivity, Fiscal Management, Regulatory Compliance, Manage Change Effectively, Bureaucracy and organizational behavior

BME405: STUDENT INDUSTRY EXPOSURE
YEAR 2, SEMESTER – IV

Credit	Component	Instruction/ Contact/ Practical Hours (Per Week)	Instruction/ Contact/ Practical Hours (Per Course)
02	Practical	02	30

Rationale

The rise in global competition has prompted organizations to devise strategies to have a talented and innovative workforce to gain a competitive edge. Developing an internship policy is an impactful strategy for creating a future talent pool for the industry. The Internship program not only helps fresh pass-outs in gaining professional know-how but also benefits, corporate on fresh perspectives on business issues and even discovering future business leaders.

Course Pedagogy

The course will emphasize self-learning and active classroom interaction based on students' prior preparation. The course instructor is expected to prepare a detailed session-wise schedule, showing the topics to be covered, the reading material and case material for every session. Wherever the material for any session is drawn from sources beyond the prescribed text-book, reference books, journals and magazines in the library, or from websites and other resources not accessible to the students, the course instructor should make the material available to the students well in advance, so that the students can come prepared for the classes. The pedagogical mix will consist of classroom sessions, assignments, presentations, management exercises or games/simulations or activities and student feedback.

Course Outline

Module Number	Title of the Module	Contact Hours
1	Company form of Organization and its formation	05
2	Management of an Organization	15
3	Task based Learning from an Organization	10
4	Business Communication	10
5	Management and Accounting	10
6	Business Policy and Strategic Management	10
Total Contact Hours		60

Course Syllabus

Module 1: Company form of Organization and its formation

05 hours

Details about the Organization

Module 2: Management of an Organization

15 hours

Organizational activities, Marketing Department, Role of marketing manager, Human Resource Management- Scope of HRM and Function of HRM, Finance and Accounting- Meaning, Objectives, Functions of Finance department, Information Technology- Role of IT Department, Function of IT Manager, Various IT applications in different departments, Production Department- Production Process

Module 3: Task based Learning from an Organization

10 hours

Conceptual Framework / National & International Scenario, Analysis & Findings, Conclusion and Recommendations

Module 4: Business Communication

10 hours

Employment Communication, Written Communication, Group Communication, Corporate Communication

Module 5: Management and Accounting

10 hours

Management Accounting, Marginal Costing, Funds Flow Statement, Interpreting and analysis of Financial Statements

Module 6: Business Policy and Strategic Management

10 hours

Environmental Analysis, Formulation of Strategy, Choice of Strategy

Course Evaluation

CHAROTAR UNIVERSITY OF SCIENCE AND TECHNOLOGY (CHARUSAT)

FACULTY OF HUMANITIES (FoH)

Semester IV

HS111.02 D: HUMAN VALUES AND ETHICS

Credits and Hours:

Teaching Scheme	Theory	Practical	Tutorial	Total	Credit
Hours/week	--	02	--	02	2
Marks	--	100	--	100	

Pre-requisite:

- Basic awareness of Values and Ethics

Objectives of the Course:

To facilitate learners to:

- Develop a familiarity with the Fundamental Human Values and Ethics
- Understanding Values and Ethics as per Ancient Indian Tradition
- Apply Values and Ethics in their professional, social and personal spectrum
- Understand and apply Constitutional Values and Fundamental Duties
- Explore global issues and propose solutions with reference to values and Ethics

Outline of the Course:

Sr. No.	Title of the unit	Minimum number of hours
1.	Introduction to Values and Ethics	05
2.	Ethics and Values in Ancient Indian Tradition	08
3.	Types of Values and Applied Ethics	08
4.	Constitutional Values and Fundamental Duties	05
5.	Global Issues of Values and Ethics in Contemporary Society	04
	Total hours (Theory):	--

Note: The subtopics mentioned in the modules 2 and 3 are comprehensive. The faculty member can choose any 2 topics from module 2 and 5 topics from module 3.

BM241: HEALTHCARE MANAGEMENT YEAR 2, SEMESTER – IV

Credit	Component	Instruction/ Contact/ Practical Hours (Per Week)	Instruction/ Contact/ Practical Hours (Per Course)	Course Classification
02	Practical	02	30	University Elective

Rationale

The healthcare business is continuously evolving and growing; therefore, it is essential to stay abreast of the latest developments and manage every part of a hospital or other relevant facility. This course will introduce the students to concepts of management in the health care segment and expose them to several strategies to manage change within the health care industry. Further, it will help the students to understand day-to-day operations of a hospital or department, maintain relationships with stakeholders and handle any issues that arise in the health care sector.

Course Pedagogy

The course will emphasize self-learning and active classroom interaction based on students' prior preparation. The course instructor is expected to prepare a detailed session-wise schedule, showing the topics to be covered, the reading material and case material for every session. Wherever the material for any session is drawn from sources beyond the prescribed text-book, reference books, journals and magazines in the library, or from websites and other resources not accessible to the students, the course instructor should make the material available to the students well in advance, so that the students can come prepared for the classes. The pedagogical mix will consist of classroom sessions, assignments, presentations, management exercises or games/simulations or activities and student feedback.
