ACADEMIC REGULATIONS & SYLLABI

Faculty of Management Studies
Bachelor of Business Administration (BBA) –
General
Batch: 2022-25

Accredited with Grade A+ by NAAC, GoI

Education Campus – Changa, (ECC), hitherto a conglomerate of institutes of professional education in Engineering, Pharmacy, Computer Applications, Management, Applied Sciences, Physiotherapy and Nursing, is one of the choicest destinations by students. It has been transformed into Charotar University of Science and Technology (CHARUSAT) through an Act by Government of Gujarat. CHARUSAT is permitted to grant degrees under Section-22 of UGC – Government of India.

The journey of CHARUSAT started in the year 2000, with only 240 Students, 4 Programmes, one Institute and an investment of about Rs. 3 Crores (INR 30 million). At present there are nine different institutes falling under ambit of six different faculties. The programmes offered by these faculties range from undergraduate (UG) to Ph.D degrees. These faculties, in all offer 74 different programmes. A quick glimpse is as under:

Faculty	Institute	Programmes Offered
Faculty of Technology and Engineering	Chandubhai S. Patel Institute of Technology	B.Tech M.Tech Ph.D
Faculty of Pharmacy	Ramanbhai Patel College of Pharmacy	B.Pharm M.Pharm Ph.D PGDCT / PGDPT
Faculty of Management Studies	Indukaka Ipcowala Institute of Management	BBA MBA Ph.D
Faculty of Computer Applications	Smt. Chandaben Mohanbhai Patel Institute of Computer Applications.	BCA MCA M.Sc IT Ph.D BCA
Faculty of Sciences	P.D. Patel Institute of Applied Sciences	B.Sc M.Sc Ph.D
Faculty of Medical Sciences	Ashok and Rita Institute of Physiotherapy	B.PT M.PT Ph.D
	Manikaka Topawala Institute of Nursing	B.Sc (Nursing) P.B. B.Sc. Nursing GNM M.Sc.

		Ph.D
	Bapubhai Desaibhai Patel Institute of Paramedical Sciences	BMIT BSMT BOTAT BOP MSc. MIT MSMLT MSOTAT PGDMLT PGDCH Ph. D

The development and growth of the institutes have already led to an investment of over Rs.150 Crores (INR 1500 Million). The future outlay is planned with an estimate of Rs.250 Crores (INR 2500 Million).

The University is characterized by state-of-the-art infrastructural facilities, innovative teaching methods and highly learned faculty members. The University Campus sprawls over 125 acres of land and is Wi-Fi enabled. It is also recognized as the Greenest Campus of Gujarat.

CHARUSAT is privileged to have 360 core faculty members, educated and trained in IITs, IIMs and leading Indian Universities, and with long exposure to industry. It is also proud of its past students who are employed in prestigious national and multinational corporations.

From one college to the level of a forward-looking University, CHARUSAT has the vision of entering the club of premier Universities initially in the country and then globally. **High Moral Values like Honesty, Integrity and Transparency** which has been the foundation of ECC continues to anchor the functioning of CHARUSAT. Banking on the world class infrastructure and highly qualified and competent faculty, the University is expected to be catapulted into top 20 Universities in the coming five years. In order to align with the global requirements, the University has collaborated with internationally reputed organizations like Pennsylvania State University – USA, University at Alabama at Birmingham – USA, Northwick Park Institute –UK, ISRO, BARC, etc.

CHARUSAT has designed curricula for all its programmes in line with the current international practices and emerging requirements. Industrial Visits, Study Tours, Expert Lectures and Interactive IT enabled Teaching Practice form an integral part of the unique CHARUSAT pedagogy.

The programmes are credit-based and have continuous evaluation as an important feature. The pedagogy is student-centered, augurs well for self-learning and motivation for enquiry and research, and contains innumerable unique features like:

- Participatory and interactive discussion-based classes.
- Sessions by visiting faculty members drawn from leading academic institutions and industry.
- Regular weekly seminars.

- Distinguished lecture series.
- Practical, field-based projects and assignments.
- Summer training in leading organizations under faculty supervision in relevant programmes.
- Industrial tours and visits.
- Extensive use of technology for learning.
- Final Placement through campus interviews.

Exploration in the field of knowledge through research and development and comprehensive industrial linkages will be a hallmark of the University, which will mould the students for global assignments through technology-based knowledge and critical skills.

The evaluation of the student is based on grading system. A student has to pursue his/her programme with diligence for scoring a good Cumulative Grade Point Average (CGPA) and for succeeding in the chosen profession and life.

CHARUSAT welcomes you for a Bright Future.....

CHAROTAR UNIVERSITY OF SCIENCE

CHARUSAT

FACULTY OF MANAGEMENT STUDIES

ACADEMIC REGULATIONS

Bachelor of Business Administration (BBA) – General Programme

To ensure uniform system of education, duration of undergraduate and post graduate programmes, eligibility criteria for and mode of admission, credit load requirement and its distribution between course and system of examination and other related aspects, following academic rules and regulations are recommended.

1. System of Education

The Semester system of education should be followed across The Charotar University of Science and Technology (CHARUSAT) both at Undergraduate and Master's levels. Each semester will be at least 90 working day duration. Every enrolled student will be required to take a specified load of course work in the chosen subject of specialization and also complete a project/dissertation if any.

2. Duration of Programme

2.1 The Bachelor of Business Administration (BBA) – General programme of Charotar University of Science and Technology (CHARUSAT) is a **three-year full-time** undergraduate programme, leading to the award of the degree of Bachelor of Business Administration (BBA).

2.2 The span of the programme is four / five years (as decided by the university from time to time) from the date of registration in the programme.

3. Eligibility and mode of admissions

3.1 **Candidate** should have passed 12th standard (or equivalent) examination (any stream) with English as a subject is eligible for admission to the BBA - General Programme and according to the regulations for admission decided by CHARUSAT from time to time.

4. Programme structure and Credits

4.1 ***A student admitted to a program should study the course and earn credits specified in the course structure.*** The details of programme structure, credit requirements, areas of specialisation proposed to be offered, etc. are presented at Appendix – I.

4.2 Programme Outcomes (PO)

Graduates will be able to...

PO1 - Analyse contemporary issues and apply management knowledge for resolution.

PO2 - Practice effective communication and interpersonal skills.

PO3 - Understand Global Perspectives and exhibit Cross-Cultural sensitivity.

PO4 - Demonstrate Attitude for continuous learning and development.

5. Attendance

5.1 All activities prescribed under these regulations and listed by the course faculty members in their respective course outlines are compulsory for all students pursuing the courses. No exemption will be given to any student from attendance except on account of serious personal illness or accident or family calamity that may genuinely prevent a student from attending a particular session or a few sessions. However, such unexpected absence from classes and other activities will require to be condoned by the Dean/Principal.

5.2 Student attendance in every course should be 80%.

6 Course Evaluation

6.1 The performance of every student in each course will be evaluated as follows:

- 6.1.1 Internal evaluation by the course faculty member(s) based on continuous assessment, for 30% of the marks for the course; and
- 6.1.2 Final examination by the University through written paper or practical test or oral test or presentation by the student or a combination of these, for 70% of the marks for the course.

6.2 University Examination

- 6.2.1 The final examination by the University for 70% of the evaluation for the course will be through written paper or practical test or oral test or presentation or a combination of these.
- 6.2.2 In order to earn the credit in a course, a student has to obtain a grade other than FF.

6.3 Performance at Internal Evaluation Components and University Examination

If a student secures minimum passing marks of 40% in the University examinations in any course but fails to obtain the minimum passing total percentage of 50%, he/she has to repeat the university examination in the course.

Minimum percentage marks in University Exam for pass in any course	Minimum total percentage marks (i.e. internal+ University) for pass in any course
40%	50%

7. Grading

7.1 The total of the internal evaluation marks and final University examination marks in each course will be converted to a letter grade on a ten-point scale as per the following scheme:

Grading Scheme:

Letter Grade	AA	AB	BB	BC	CC	CD	DD	FF
Grade Point	10	9	8	7	6	5	4	0

7.2 The student's performance in any semester will be assessed by the Semester Grade Point Average (SGPA). Similarly, his performance at the end of two or more consecutive semesters will be denoted by the Cumulative Grade Point Average (CGPA). The SGPA and CGPA are calculated as follows:

(i) $SGPA = \frac{\sum C_i G_i}{\sum C_i}$ where C_i is the number of credits of course i
 G_i is the Grade Point for the course i
 and $i = 1$ to n , n = number of courses in the semester

(ii) $CGPA = \frac{\sum C_i G_i}{\sum C_i}$ where C_i is the number of credits of course i
 G_i is the Grade Point for the course i

and $i = 1$ to n , n = number of courses of all semesters up to which CGPA is computed.

(iii) No student will be allowed to move to the second academic year if his/her CGPA is less than 3 at the end of the first academic year.

(iv) in addition to above, a student has to comply with the requirements of the regulatory bodies, wherever such requirements exist.

(v) A student will have a maximum of four chances* after first appearing in that examination to clear that course, subject to the restriction on the span period stipulated in clause 2.2 above.

*(*Whenever the university conducts the examinations of that course, it will be considered as a chance, irrespective of whether the student appears for the examination or not.)*

8. Awards of Bachelor Degree

8.1 Every student of the programme who fulfils the following criteria will be eligible for the award of the degree:

8.1.1 He should have earned at least minimum required credits as prescribed in course structure.

8.2 Any student who fails to satisfy minimum requirement of CGPA will be allowed to improve the grades so as to secure a minimum CGPA for the award of degree.

9. Award of Class:

The class awarded to a student in the programme is decided by the final CGPA as per the following scheme:

First Class with Distinction	= CGPA of 7.50 and above
First Class	= CGPA of 6.00 to 7.49
Second Class	= CGPA of 5.00 to 5.99

10 Transcript:

The transcript issued to the student at the time of leaving the University will contain a consolidated record of all the courses taken, credits earned, grades obtained, SGPA, CGPA and class obtained.

Appendix – I

Details of BBA – General Programme Structure, Credit Requirements and Specialisation

A1. Programme Structure

- A1.1 The programme is structured into *six semesters*, consisting of classroom contact-based work and *Organization Attachment Programme*.
- A1.2 Each semester will be for a minimum of *90 working days* for classroom work, covering classroom contact sessions, laboratory/tutorial/library/group work, case discussions and presentation, field-based as well as library/internet search-based assignments and projects, classroom exercises, management and simulation games, short quizzes, and class tests. The duration for any organizational attachment/training during the semester and final University examinations will be in addition to the 90 working days.
- A1.3 *Organization Attachment Programme* will be for a minimum duration of 45 working days and will commence at the end of the fourth semester classroom work.
- A1.4 The structure of the BBA programme is as shown in the following figure:

Figure A1: BBA - General Programme Structure

A2. Credits

- A2.1 Any student of the BBA (General) programme who earns 130 credits by pursuing the prescribed course work and passing all tests, examinations, assignments, laboratory work, projects and all other evaluation components as per the passing standards of the University will be eligible for the award of the Bachelor of Business Administration (BBA) - General degree.

A2.2 A credit for the BBA programme will mean fifteen (15) classroom contact sessions of sixty (60) minutes each or fifteen (15) laboratory/ tutorial/ library/ group work sessions of two hours (120 minutes) each, pursued over a semester. With a minimum of 90 working days spread over about 15 weeks at an average of 6 working days per week, a credit will mean, on an average, one classroom contact session of sixty (60) minutes or one laboratory/ tutorial/ library/ group work session of two hours (120 minutes) per week.

A2.3 The current distribution of credits over the Three-year period for classroom contact sessions and laboratory/ tutorial/ library/ group work sessions will be as follows:

TableA2: Semester-wise Distribution of Credits

Sl. No.	Semester	Number of Credits
1	Semester - 1	18
2	Semester - 2	20
3	Semester - 3	24
4	Semester - 4	21
5	Semester - 5 (Including Organization Attachment Programme) (20+4)	24
6	Semester - 6	23
	Total Credits	130

A2.4 All courses shown in the list of courses are compulsory for all BBA (General) students. However, students will have the option of pursuing a total of five elective courses of four credits each, from the given elective streams out of the given list and one Grand Project during sixth semester.

A2.5 Some courses will have only classroom contact sessions and some others will have tutorial/ laboratory/ library/ group work sessions, as shown in the list of courses.

A3. *Specialisation / Concentration in Functional Areas*

A3.1 The institute will offer courses of specialisation in the following functional areas / streams of management:

Table A3: Areas/Streams of Specialisation/ Concentration

Functional Areas of Management
• Marketing Management • Finance • Human Resource Management

The Institute will endeavour to offer specialisation in as many areas/streams as possible from the above list. However, any specific area/ stream of specialisation/ course will be offered by the Institute during any year only if about twenty-five percentages of the students opt for it and if the faculty resources are available.

A3.2 Any student can claim to have specialised in a particular area/ stream if he has successfully completed

- (i) At least two courses (amounting to a minimum of eight credits) in the area/ stream by taking electives offered in the area/ stream during the fifth and sixth semesters of the programme, and
- (ii) One project of five credits in the area/stream during the sixth semesters of the programme.

A3.3 Every student has to opt for specialisation in only one functional area of management for the award of BBA (General) degree.

A4. Sectoral Electives

A4.1 The institute will offer courses of in the following Sectoral areas of management:

Table A3: Sectoral Areas

Sectoral Areas of Management
• Information Technology and Analytics • Tourism and Hospitality

The Institute will endeavour to offer course in as many areas/streams as possible from the above list. However, streams / course will be offered by the Institute during any year only if about twenty-five percentages of the students opt for it and if the faculty resources are available.

A4.2 Any student can claim to have an understanding in particular sector if he has successfully completed

- (iii) At least two courses (amounting to a minimum of four credits) in one specific sector offered in the area/ stream during the fifth and sixth semesters of the programme
- (iv) A student may opt for only one sectoral elective out of four sectoral offered by the institute by taking one course in semester V and VI.

A4.3 However, no student will be allowed to specialise in more than one functional area / stream and / or Sectoral area of management.

A5. Courses, Curricula and Revision

A5.1 The Faculty Board of the Faculty of Management Studies and the Dean of the Faculty of Management Studies will keep the curricula current and in tune with the changes happening in the world of management and make it relevant to the needs of different organs of society.

A5.2 The review of the programme, its structure, the course curricula, pedagogy and evaluation will be undertaken by the individual Boards of Studies at least once in every two years.

Total Credit for the Semester:				22
Total Credit for the BBA General Program:				129

Note:

1. Procedure for Selection of Stream of Specialization and Courses

Step: 1 – Selection of Stream of Specialization (Only One for the Programme)

A student must choose any one stream of specialization out of the offering. The stream so chosen by the student will remain same for Semester – V, and VI. Under no circumstances, the stream of specialization can be changed.

Step: 2 – Choice of Courses in Semester - V

From the stream so chosen (as mentioned in Step: 1), the student has to choose any 02 (two) courses out of 03 (three) options available. The total credit that can be obtained in Semester-V for specialization courses will be 2 courses x 4 credits = 08 Credits.

Step: 3 – Choice of Courses in Semester – VI

A Student has to repeat Step: 2 in Semester – VI and will have to choose 02 (two) more courses out of 03 (three) in the same stream / area of specialization that he / she has selected during the start of Semester – V. The total credit that can be obtained in Semester-VI for specialization courses will be 2 courses x 4 credits = 08 Credits.

2. Rules for offering Elective Stream / Courses

- Minimum 25% of students must have opted for a particular course.
- Based on availability of faculty.

Bachelor of Business Administration (BBA) - General Programme

SYLLABI

(Semester – V)

CHAROTAR UNIVERSITY OF SCIENCE AND TECHNOLOGY

BMG501: ORGANIZATIONAL ATTACHMENT PROGRAM
YEAR 3, SEMESTER – 5

Credit	Component	Instruction/ Contact/ Practical Hours (Per Week)	Instruction/ Contact/ Practical Hours (Per Course)
04	Practical	04	60

Rationale

Organizational attachment program is a summer internship which provides students an opportunity to hone a range of professional skills such as critical thinking, problem solving skills and working in teams. The idea of dealing with unfamiliar settings and having to work on newer real-world problems will force the students to get out of their comfort zone and lead to self-discovery. Internships typically provide a great exposure to students across key functional areas, key customers and critical projects. This would force interns to quickly adapt and adopt the state-of-the-art practices that are considered by companies. During the internship, interns can afford to make mistakes, correct and learn from such mistakes and gain immense experience to develop their vision for personal growth from a long-term perspective. An internship will help the students to not only learn about their capabilities but will also encourage them to have better traction on their strengths and weaknesses and learn more about themselves.

Course Pedagogy

The course will emphasize self-learning and active classroom interaction based on students' prior preparation. The course instructor is expected to prepare a detailed session-wise schedule, showing the topics to be covered, the reading material and case material for every session. Wherever the material for any session is drawn from sources beyond the prescribed text-book, reference books, journals and magazines in the library, or from websites and other resources not accessible to the students, the course instructor should make the material available to the students well in advance, so that the students can come prepared for the classes. The pedagogical mix will consist of classroom sessions, assignments, presentations, management exercises or games/simulations or activities and student feedback.

Course Outline

Module Number	Title of the Module	Weeks
1	Internship Project Report	30
2	Research Project	30
Total Contact Hours		60

Course Syllabus

Part 1: Internship Project Report

30 hours

Industry overview, About the company / organization, Departmental Information, Information about Products / Services, SWOT analysis of the company / organization, BCG Matrix for the company / organization, Financial Statements of the current year and previous year, Financial analysis using several tools (Ratio Analysis, and Comparative Statements), Activities/Project undertaken during training period as per log book and task based learning diary, Highlight achievements and challenges during entire training period, Explain how the internship contributed to the your academic and professional development, Contributions to the Company: Highlight any innovative ideas, process improvements, or contributions to ongoing projects, Feedback and Evaluation: Include feedback received from supervisors, mentors, or colleagues, Conclusion: Summarize the overall internship experience. Reiterate key takeaways and achievement, References: Cite any sources or references used in the report.

Part 2: Research Project

30 hours

Title of the Research Project, Abstract, Keywords, Introduction, Literature Review, Research Methodology, Data Analysis and Its Interpretation, Findings, Conclusion and Recommendations, if any, Limitations of the study, Scope for further research, References, Annexures (Questionnaire etc.).

Course Evaluation

I. Continuous and Comprehensive Evaluation (30 Marks)

Component	Marks
Part-I	10
Part-II	20
Total marks (CCE)	30

II. Semester End Evaluation (70 Marks):

- University Examination will be carried out at the end of the semester.
- Practical examination will be based on project or report presentation and viva-voce examination or software based analysis depending on the nature of the course.

Journals/ Magazines/ Newspaper:

1. Journals available in the Library.
2. Subscribed E-Journals.
3. Open access research articles/journals

Programme Outcomes: Upon successful completion of the course, students will be,

PO1	Analyze contemporary issues and apply management knowledge for resolution.
PO2	Practice effective communication and interpersonal skills.
PO3	Understand Global Perspectives and exhibit Cross-Cultural sensitivity.
PO4	Demonstrate Attitude for continuous learning and development.

Course Outcomes: Upon successful completion of the course, students will be,

CO1	Ability to comprehend all the learning of the previous semesters.
CO2	Develops an in-depth understanding of all the general and functional areas of the organization.
CO3	Investigating on a topic related to their area of interest and developing a comprehensive understanding of the same.
CO4	Evolves critical thinking skills in the students.
CO5	Skills to determine the challenges and future potential for the internship organization in particular and the sector in general.
CO6	Applying various soft skills such as time management, positive attitude and communication skills during performance of the tasks assigned in the internship organization.
CO7	Seeking variety of career options in finance, accounting, marketing, analytics, HR, and entrepreneurship.

BMG502: STRATEGIC MANAGEMENT
YEAR 3, SEMESTER – V

Credit	Component	Instruction/ Contact/ Practical Hours (Per Week)	Instruction/ Contact/ Practical Hours (Per Course)
04	Theory	04	60

Rationale

This course in Strategic Management is designed to equip students with a robust understanding of essential concepts, principles, and practical applications vital for effective organizational decision-making. In today's dynamic business landscape, strategic management is a cornerstone for achieving long-term success and competitive advantage. The course covers topics ranging from the foundational meaning and nature of strategic management to the practical aspects of strategic planning, emphasizing the significance of aligning organizational objectives with strategic initiatives. By fostering a nuanced understanding of strategic concepts and decision-making processes, the course prepares students to navigate complexities, capitalize on opportunities, and contribute strategically to organizational success in real-world scenarios.

Course Pedagogy

The course will emphasize self-learning and active classroom interaction based on students' prior preparation. The course instructor is expected to prepare a detailed session-wise schedule, showing the topics to be covered, the reading material and case material for every session. Wherever the material for any session is drawn from sources beyond the prescribed text-book, reference books, journals and magazines in the library, or from websites and other resources not accessible to the students, the course instructor should make the material available to the students well in advance, so that the students can come prepared for the classes. The pedagogical mix will consist of classroom sessions, assignments, presentations, management exercises or games/simulations or activities and student feedback.

Course Outline

Module Number	Title of the Module	Contact Hours
1	Nature and Evolution of Strategic Management	10
2	Strategic Management Process	10
3	Hierarchy of Strategic Intent	10
4	Environment Analysis	10
5	Business Strategy	10
6	Strategic Organizational Design	10
Total Contact Hours		60

Course Syllabus

Module 1: Nature and Evolution of Strategic Management **10 hours**

Meaning of Strategic Management, Nature of Strategic Management, Benefits of Strategic Management, Limitations of Strategic Management, Concepts of Strategy, Policy and Tactics, Levels of Strategy, Concept of Strategic Planning, Process of Strategic Planning, Strategic Planning Vs Strategic Management.

Module 2: Strategic Management Process **10 hours**

Strategic Decision Making, Approaches to Strategic Decision making, Process and Model of Strategic Management, Participants in Strategic Management.

Module 3: Hierarchy Strategic Intent **10 hours**

Concepts of Strategic Intent, Vision, Mission, Business Definition, Business Model, Goals and Objectives, Stakeholders Approach to Organizational Objectives, Balanced Scorecard approach to objective setting, Critical Success Factors.

Module 4: Environment Analysis **10 hours**

Concept of Environment, Nature and Components of Environment, Concept and Role of Environment Analysis, Industry Analysis, Competition analysis.

Module 5: Business Strategy **10 hours**

Business-Level Strategy: How to Compete for, Differentiation Strategy, Cost-Leadership Strategy, Business-Level Strategy and the Five Forces.

Module 6: Strategic Organizational Design **10 hours**

Organizational Design and Competitive Advantage, Strategy and Structure, Organizing for Innovation, Strategic Control-and-Reward Systems.

BMG563: TOURISM AND HOSPITALITY-1
YEAR 3, SEMESTER – V

Credit	Component	Instruction/ Contact/ Practical Hours (Per Week)	Instruction/ Contact/ Practical Hours (Per Course)
02	Practical	02	30

Rationale

The demand for tourism and hospitality services exhibits a consistent upward trend. Hospitality and Tourism sector plays a vital role in the global economy. The tourism sector plays a substantial role in the gross domestic product (GDP) of numerous nations, generating employment prospects and fostering economic expansion. Through the pursuit of academic studies in tourism and hospitality management, students acquire the requisite knowledge and skills essential for making valuable contributions to this industry and fostering economic growth. The rationale for studying tourism and hospitality management is rooted in the economic importance of the industry, the growing need for proficient practitioners, the wide array of employment prospects, the global scope of the sector, the emphasis on delivering exceptional customer service, the commitment to sustainable practices, the requirement for innovation and entrepreneurship, and the safeguarding of cultural heritage. Through the pursuit of this discipline, students have the opportunity to acquire a comprehensive understanding, aptitude, and perspective essential for achieving success within this ever-evolving and gratifying field. Decision Making is one of the vital skill which a manager come across while handling the routine tasks. Along with the decision making, a Manager is expected to have certain abilities which involves critical and logical way of thinking. This course Logical Analysis and Decision Making will accustom students to analyze day-to-day tasks and will develop students as managers with independent, self-directed thinking.

Course Pedagogy

The course will emphasize self-learning and active classroom interaction based on students' prior preparation. The course instructor is expected to prepare a detailed session-wise schedule, showing the topics to be covered, the reading material and case material for every session. Wherever the material for any session is drawn from sources beyond the prescribed text-book, reference books, journals and magazines in the library, or from websites and other resources not accessible to the students, the course instructor should make the material available to the students well in advance, so that the students can come prepared for the classes. The pedagogical mix will consist of classroom sessions, assignments, presentations, management exercises or games/simulations or activities and student feedback.

Course Outline

Module Number	Title of the Module	Contact Hours
1	Introduction to the Hospitality Industry	10
2	Introduction to Tourism	10
3	Marketing for Hospitality and Tourism	10
Total Contact Hours		30

Course Syllabus

Module 1: Introduction to the Hospitality Industry

10 hours

Overview of Hospitality Industry, Evolution and Growth of Hospitality Industry, Hotel Organization Structure, Classification of Hotels, Hotel Categories – Star Rating, Types of Hotel Rooms, Plans and Rates, Front Office and its Co-ordination with Other Departments, Hotel Chains in India, Hospitality Industry in Today's Scenario

Module 2: Introduction to Tourism

10 hours

Concept of Tourism and Industrial Background, Psychological Dimensions and The Motivations of Travel, Tourism: Types, Forms, Products and Attractions, Indian Tourism, Modes of Transport in India, Tourist Circuit: Meaning & Examples, UNESCO World Heritage Sites, Travel Agency & Tour Operations, Significance and Impacts of Tourism, Socio – Cultural, Economic and Environmental

BMG511: CORPORATE FINANCE YEAR 3, SEMESTER – V

Credit	Component	Instruction/ Contact/ Practical Hours (Per Week)	Instruction/ Contact/ Practical Hours (Per Course)
04	Theory	04	60

Rationale

Financial Managers has to develop the understanding related financial tools and techniques to implement in an organization. This curriculum course structure is developed such that students will acquire skills to critically assess the long term and short term financial issues and help students to take the appropriate financial decisions to achieve the financial goals of an organization. Decision Making is one of the vital skill which a manager come across while handling the routine tasks. Along with the decision making, a Manager is expected to have certain abilities which involves critical and logical way of thinking. This course Logical Analysis and Decision Making will accustom students to analyze day-to-day tasks and will develop students as managers with independent, self-directed thinking.

Course Pedagogy

The course will emphasize self-learning and active classroom interaction based on students' prior preparation. The course instructor is expected to prepare a detailed session-wise schedule, showing the topics to be covered, the reading material and case material for every session. Wherever the material for any session is drawn from sources beyond the prescribed text-book, reference books, journals and magazines in the library, or from websites and other resources not accessible to the students, the course instructor should make the material available to the students well in advance, so that the students can come prepared for the classes. The pedagogical mix will consist of classroom sessions, assignments, presentations, management exercises or games/simulations or activities and student feedback.

Course Outline

Module Number	Title of the Module	Contact Hours
1	Basics of Corporate Finance	10
2	Time value of Money	10
3	Financial Aspects of Project, analysis, and Appraisal and Valuation	10
4	Working Capital Management	10
5	Payout Policy	10
6	Leasing and Hire Purchase	10
Total Contact Hours		60

Course Syllabus

Module 1: Basics of Corporate Finance

10 hours

Introduction to corporate finance, Role of financial manager, Goal of corporation, Agency problem and corporate governance, Introduction to risk and return, Sources of long term finance, Sources of short term finance.

Module 2: Time value of Money

10 hours

Time Lines and Notation, Future value of a Single amount, Present value of a Single amount, Future value of an annuity, Future value of an annuity, Present Values of an perpetuity, Intra year compounding and discounting.

Module 3: Techniques of Capital Budgeting

10 hours

Discounting and Non discounting investment criteria, Net present values, Benefit-to-cost ratio, Internal rate of return, Payback period, Accounting rate of return.

Module 4: Working Capital Management

10 hours

Determinant of Working Capital, Working Capital Policy, Operating Cycle and Cash Cycle, Cash Management, Credit Management, Inventory Management, Sources of Short Term Funds.

Module 5: Payout Policy

10 hours

Dividend Policy & Firm Value, Dividend Theories and Models, Dividend Decision, Bonus Shares and Stock Split, Share buyback

Module 6: Leasing and Hire Purchase

10 hours

Types of Leases, Rationale for Leasing, Mechanics of Leasing, Leasing as a Financing Decision, Hire-Purchase Arrangement, Choice between Lease and Hire-Purchase.

Course Evaluation

I. Continuous and Comprehensive Evaluation (30 Marks)

Component	Marks
Quiz	80
Assignment/ Project/ Presentation	90
Online Course	60
Internal Examination	40
Participation	30
Total marks (CCE)	300

II. Semester End Evaluation (70 Marks):

- University Examination will be carried out at the end of the semester.
- Theory examination will be for 3 hours based on written paper for 70 marks.

Text Book:

1. Chandra Prasanna, Financial Management –Theory and Practice, Tata McGraw-Hill.

Reference Books:

1. Pandey I.M., Financial Management, Routledge Publisher, Vikas Publication.
2. Srivastava Rajiv, and Anil Misra, Financial Management, Oxford University Press.
3. Alan C. Shapiro and Sheldon, Modern Corporate Finance, Pearson Education.

Programme Outcomes: Upon successful completion of the course, students will be,

PO1	Analyze contemporary issues and apply management knowledge for resolution.
PO2	Practice effective communication and interpersonal skills.
PO3	Understand Global Perspectives and exhibit Cross-Cultural sensitivity.
PO4	Demonstrate Attitude for continuous learning and development.

Course Outcomes: Upon successful completion of the course, students will be,

CO1	Understand the financial theory to solve the practical problems of organization.
CO2	Apply the time value of money concept to solve the financial problem of an organization.
CO3	Evaluate the short term financial data to calculate working capital requirement.
CO4	Choose the appropriate dividend decisions considering organizational goals.
CO5	Interpret the outcomes of leasing and hire purchase and take appropriate financial decisions.

BMG512: COST AND MANAGEMENT ACCOUNTING YEAR 3, SEMESTER – V

Credit	Component	Instruction/ Contact/ Practical Hours (Per Week)	Instruction/ Contact/ Practical Hours (Per Course)
04	Theory	04	60

Rationale

Cost and Management Accounting' is very important and useful for optimum utilization of existing resources. These are branches of accounting and had been developed due to limitations of financial accounting. It is an indispensable discipline for corporate management, as the information collected and presented to management based on cost and management accounting techniques helps management to solve not only specific problems but also guides them in decision making. Keeping in view the importance of this subject, various topics on Cost and Management Accounting have been prescribed in the syllabus of BBA Programme.

Course Pedagogy

The course will emphasize self-learning and active classroom interaction based on students' prior preparation. The course instructor is expected to prepare a detailed session-wise schedule, showing the topics to be covered, the reading material and case material for every session. Wherever the material for any session is drawn from sources beyond the prescribed text-book, reference books, journals and magazines in the library, or from websites and other resources not accessible to the students, the course instructor should make the material available to the students well in advance, so that the students can come prepared for the classes. The pedagogical mix will consist of classroom sessions, assignments, presentations, management exercises or games/simulations or activities and student feedback.

Course Outline

Module Number	Title of the Module	Contact Hours
1	Introduction to Cost and Management Accounting	05
2	Material & Labour cost	15
3	Overhead cost	10
4	Unit Costing	15
5	CVP Analysis & Decision Making	10
6	Standard costing & Budgetary control	05
Total Contact Hours		60

Course Syllabus

Module 1: Introduction to Cost and Management Accounting **05 hours**

Basic Cost Concepts Elements of Costs, Classification of Costs, Total Cost Build Up and Cost sheet, Emerging Terms, Manufacturing Cost, Non-Manufacturing Cost.

Module 2: Material & Labour Cost **15 hours**

Meaning of Material, Material control techniques, Examples based Stock Levels: Maximum Level; Minimum Level; Reorder Level; Danger Level; Average Stock Level; Economic Order Quantity, meaning; Control of Labour Cost; Labour Turnover; Causes and, Remedies of Labour Turnover, Features of a good wage system, Methods of remuneration; Time Rate; Piece Wage, Examples based on Time Rate as per Halsey Plan and Rowan Plan only.

Module 3: Overhead Cost **10 hours**

Meaning of Overheads; Classification of Overhead Cost, Allocation and Apportionment of Overheads; Absorption of Overheads, Examples based on Apportionment of Service Department Overheads over Production Department under Repeated Distribution Method, Methods of absorption of overheads (Theory Only), Examples based on Machine Hour Rate

Module 4: Unit Costing **15 hours**

Examples based on Cost Sheet including tender, Need for Reconciliation; Methods of Reconciliation (Theory Only), Problems on Preparation of Cost Reconciliation Statement

Module 5: CVP Analysis & Decision Making **10 hours**

Interrelationship between Cost, Volume and Profits, Breakeven Analysis Assumptions, Limitations, Margin of Safety, Profit Volume Ratio, Relevant Cost Concepts, Problems relating to Merging Plants

Module 6: Standard costing & Budgetary Control **05 hours**

Material Variance, Labour Variance, Sales Variance, Overhead Variance, Cash budget, flexible budget.

BMG513: BASICS OF FINANCIAL MODELLING
YEAR 3, SEMESTER – V

Credit	Component	Instruction/ Contact/ Practical Hours (Per Week)	Instruction/ Contact/ Practical Hours (Per Course)
04	Theory	04	60

Rationale

Financial modelling is a crucial instrument that makes it possible to estimate business ideas and risks efficiently. It is a process of presenting a company's financial status in an effective manner. This curriculum course structure is developed such that students will acquire skills to critically assess the performance of the business and accordingly will help students to take the appropriate investment decisions.

Course Pedagogy

The course will emphasize self-learning and active classroom interaction based on students' prior preparation. The course instructor is expected to prepare a detailed session-wise schedule, showing the topics to be covered, the reading material and case material for every session. Wherever the material for any session is drawn from sources beyond the prescribed text-book, reference books, journals and magazines in the library, or from websites and other resources not accessible to the students, the course instructor should make the material available to the students well in advance, so that the students can come prepared for the classes. The pedagogical mix will consist of classroom sessions, assignments, presentations, management exercises or games/simulations or activities and student feedback.

Course Outline

Module Number	Title of the Module	Contact Hours
1	Introduction to Financial Modelling	10
2	Use of Excel Functions in Financial Modeling	10
3	Time Value of Money Capital Budgeting	10
4	Financial Statement Modelling	10
5	Discounted Cash Flows & Valuation	10
6	Basics of Portfolio Theory Using Excel	10
Total Contact Hours		60

Course Syllabus

Module 1: Introduction to Financial Modelling **10 hours**

Introduction to Financial Modelling, Getting Acquainted with Excel, Referencing Cell, Naming Ranges, Linkages in Excel, Using Shortcuts, Restricting and validating data, Charting and Presenting Data, Types of Charts.

Module 2: Use of Excel Functions in Financial Modelling **10 hours**

MAX and MIN, AVERAGE, ROUND, ROUNDUP and ROUNDDOWN, COUNT and COUNTA, IF, COUNTIF, SUM IF, SUM COUNT, Summarizing Data using Histograms, Lookup Functions, Pivot table.

Module 3: Time Value of Money and its application in Finance **10 hours**

Basics Time Value of Money Functions, Present values, Future Values, PMT function, Loan Amortization Schedule.

Module 4: Financial Statement Modelling **10 hours**

Entering Assumptions, Calculating Revenue, Calculating Expenses, Building Income Statement, Building Cash Flow Statement, Building Balance Sheet.

Module 5: Discounted Cash Flow Techniques **10 hours**

Capital Budgeting in excel with solver, NPV and IRR, what if analysis, Sensitivity analysis and, Scenario analysis, Goal seek command using solver.

Module 6: Basics of Portfolio Theory **10 hours**

Standard deviation, Correlations, Beta, Regression, Variance covariance matrix, Creating efficient frontier for asset allocation, Minimum variance portfolio and optimal (market portfolio) in asset case.

2	Recruiting and Retention Strategies	10
3	Training and Development Strategies	10
4	Performance Management Strategies	08
5	Reward and Compensation Strategies	06
6	Global HR Strategies	06
Total Contact Hours		60

Course Syllabus

Module 1: Introduction

10 hours

Identifying Critical Talent for Organization or Area of Responsibility and Device Mechanisms to Deliver Expected Business Results, Develop A Roadmap Linking Advanced HRM to Organization's Competitive Success By Moving From Traditional HRM Mindset To Advance HRM Mindset.

Module 2: Recruiting and Retention Strategies

10 hours

Online Recruitment; Employee Referrals; Recruitment Process Outsourcing, Head Hunting, Executive Education; Flexi Timing; Telecommuting, Quality of Work Life; Work - Life Balance, Employee Empowerment, Employee Involvement; Autonomous Work Teams.

Module 3: Training and Development Strategies

10 hours

Creating A Learning Organization; Competency Mapping, Multi-Skilling, Succession Planning, Cross Cultural Training.

Module 4: Performance Management Strategies

08 hours

Defining Key Result Areas (KRA), Result Based Performance, Linking Performance to Pay; Merit Based Promotions.

Module 5: Reward and Compensation Strategies

06 hours

Performance Based Pay; Skill Based Pay; Team Based Pay, Broad Banding; Profit Sharing; Executive Compensation; Variable Pay.

Module 6: Global HR Strategies

06 hours

Introduction to Global HR Strategies, Developing HR as a Value-added Function.

BMG522: ORGANIZATION DEVELOPMENT
YEAR 3, SEMESTER – V

Credit	Component	Instruction/ Contact/ Practical Hours (Per Week)	Instruction/ Contact/ Practical Hours (Per Course)
04	Theory	04	60

Rationale

This course introduces the student with fundamentals of Organizational Development (OD), essential interventions and effective methods in organization development.

Course Pedagogy

The course will emphasize self-learning and active classroom interaction based on students' prior preparation. The course instructor is expected to prepare a detailed session-wise schedule, showing the topics to be covered, the reading material and case material for every session. Wherever the material for any session is drawn from sources beyond the prescribed text-book, reference books, journals and magazines in the library, or from websites and other resources not accessible to the students, the course instructor should make the material available to the students well in advance, so that the students can come prepared for the classes. The pedagogical mix will consist of classroom sessions, assignments, presentations, management exercises or games/simulations or activities and student feedback.

Course Outline

Module Number	Title of the Module	Contact Hours
1	Introduction to Organizational Development	08
2	Process of Organizational Development	12
3	OD Interventions	10
4	Implementation and Assessment of OD	10
5	Organizational Change	12
6	Contemporary Issue	08
Total Contact Hours		60

Course Syllabus

Module 1: Introduction to Organizational Development **08 hours**

Introduction to organizations Concept and Characteristics of organizations, Conceptual Framework of OD, Historical background of OD, Values, assumptions and beliefs in OD, Inter-Disciplinary Nature of OD.

Module 2: Process of Organizational Development **12 hours**

A Process and an Approach, Theories of organizations - classical theories - features of Bureaucracy - administrative theory and Scientific management - Neo-classical theories – the human relations movement - modern theory, Nature of organizational theory Managing OD, Process: Diagnosis, Nature of OD.

Module 3: OD Interventions **10 hours**

O.D. Interventions: Team Interventions – Inter group interventions – Personal, Interpersonal and group process interventions – Comprehensive interventions, Structural interventions OD Consultant, Issues in Consultant –, Client Relationship of OD Consultant; power, Politics and Organizational Development.

Module 4: Implementation and Assessment of OD **10 hours**

Implementation and Assessment of O.D, Implementation conditions for failure and success of efforts, Assessment of O.D. and change in organizational performance, The impact of O.D. Some key considerations and issues in O.D, Issues in Consultant – Client relationship mechanistic & organic system: and contingency approach, The failure of O.D. – Some India Experience in O.D

Module 5: Organizational Change **12 hours**

Organization Change, need for change, Factors causing change- Environmental, Technological, Legal, Political, Social, &, Cultural factors of change, Models & techniques involved in change management, Total Quality Management, Business Process Reengineering, Guidelines for Facilitating change.

Module 6: Contemporary Issues **08 hours**

Contemporary issues in OD practices to Solve OD change along with consultation with experts using OD intervention practices.

1	Industrial Relation	10
2	Trade Union	10
3	Industrial Dispute	10
4	Collective Bargaining	10
5	Workers Participation in Management	10
6	Role of Human Resource development in developing industrial relation	10
Total Contact Hours		60

Course Syllabus

Module 1: Industrial Relation

10 hours

Origin, Definition, Scope, Determinant, Socio-Economic, Technical, Political Factors affecting IR in Changing Environment, Approaches to the Study of IR: Psychological, Human Relation, Socio, Gandhinian Approach and Its Effect on Management.

Module 2: Trade Union

10 hours

Function of Trade Union, Types and Structure of Trade Union, Impact of Globalization on Trade Union Movement.

Module 3: Industrial Dispute

10 hours

Meaning, Causes, Industrial Relation Machinery to Solve Industrial Dispute: - Negotiation, Mediator, Arbitration- Work Committees, Conciliation, Board of Conciliation, Court of enquiry, Labour Court, Industrial Tribunal, National Tribunal, Role of Judiciary and its Impact on Industrial Relation.

Module 4: Collective Bargaining

10 hours

Meaning, Characteristics, Need, Importance, Essential Conditions for Success of Collective Bargaining, Process of Collective Bargaining, Causes for Failure of Collective Bargaining, Options in Case of Collective bargaining, Patterns of Negotiations, Styles of Negotiations.

Module 5: Workers Participation in Management

10 hours

Pre-Requisites, Levels of Participation, Benefits of Participation, Impact of Globalization and Information Technology on IR.

Module 6: Role of Human Resource development in developing industrial relation

10 hours

Relation Democracy, Industrial peace, Salient features of Industrial Employment (Standing order) Act 1946.

BMG551: CONSUMER BEHAVIOUR
YEAR 3, SEMESTER – V

Credit	Component	Instruction/ Contact/ Practical Hours (Per Week)	Instruction/ Contact/ Practical Hours (Per Course)
04	Theory	04	60

Rationale

Consumer is the center of all marketing activities. This course gives an overview of knowledge capturing consumer insight, and includes a consideration of how the brain works, what factors influence consumer choice. Therefore, a clear understanding of Consumer Behaviour is indispensable to successful marketing action.

Course Pedagogy

The course will emphasize self-learning and active classroom interaction based on students' prior preparation. The course instructor is expected to prepare a detailed session-wise schedule, showing the topics to be covered, the reading material and case material for every session. Wherever the material for any session is drawn from sources beyond the prescribed text-book, reference books, journals and magazines in the library, or from websites and other resources not accessible to the students, the course instructor should make the material available to the students well in advance, so that the students can come prepared for the classes. The pedagogical mix will consist of classroom sessions, assignments, presentations, management exercises or games/simulations or activities and student feedback.

Course Outline

Module Number	Title of the Module	Contact Hours
1	Introduction to Consumer Behaviour	10
2	Consumer analysis, segmentation and strategy	10
3	Consumer as an Individual	10
4	Influences on Consumer Behaviour	10
5	Consumer Influence and Diffusion of Innovation, Post-Purchase Behaviour	10
6	Micro Project / Contemporary Issues	10
Total Contact Hours		60

Course Syllabus

Module 1: Introduction to Consumer Behaviour **10 hours**
Consumers and society, Market Segmentation, Future of consumer behavior

Module 2: Consumer analysis, segmentation and strategy **10 hours**
Market segmentation, Bases of segmentation, Using segmentation effectively

Module 3: Consumer as an Individual **10 hours**
Personality and consumer behavior, Consumer Motivation: Needs, Goals & Motives, Motivational dimensions, Sensory marketing: concept & its practical application, Marketing implications of behavioral learning

Module 4: Influences on Consumer Behaviour **10 hours**
Family and social class: Role of Family, Decision Makers, Social Class, Culture and Consumer Behaviour: Indian Cultural and Value dimensions, Cross-cultural consumer behaviour, sub cultural influences, Case study discussion relevant to Indian culture & CB

Module 5: Consumer Influence and Diffusion of Innovation, Post-Purchase Behaviour **10 hours**
Innovation and its types, Diffusion Process, Models of innovation Diffusion. Diffusion through Word of Mouth, Types of purchase decision, Consumer satisfaction, Consumer Loyalty, Loyalty strategy, Case study discussion relevant to Loyalty strategy.

Module 6: Micro Project / Contemporary Issues **10 hours**
E-commerce – understanding online shopper, Use of ICT in buying, Use of social media, Future of online consumer behavior, Other relevant topic.

Course Evaluation

I. Continuous and Comprehensive Evaluation (30 Marks)

Component	Marks
Quiz	80
Assignment/ Project/ Presentation	90
Online Course	60
Internal Examination	40
Participation	30
Total marks (CCE)	300

II. Semester End Evaluation (70 Marks):

- University Examination will be carried out at the end of the semester.
- Theory examination will be for 3 hours based on written paper for 70 marks.

Text Book:

1. Leon Schiffman and Leslie Kanuk, Consumer Behaviour, Pearson Education, Low Price Edition / PHI (Latest Edition).

Reference Books:

1. Dinesh Kumar, Consumer Behaviour, Oxford Higher Education
2. S. Ramesh Kumar, Conceptual Issues in Consumer Behaviour Latest Edition, Pearson Education.

Bachelor of Business Administration (BBA) - General Programme

SYLLABI (Semester – VI)

CHAROTAR UNIVERSITY OF SCIENCE AND TECHNOLOGY

BMG601: BUSINESS LEGENDS
YEAR 3, SEMESTER – VI

Credit	Component	Instruction/ Contact/ Practical Hours (Per Week)	Instruction/ Contact/ Practical Hours (Per Course)
02	Practical	02	30

Rationale

The course on "Business Legends" is strategically positioned to complement the managerial skillset acquired throughout the BBA program. By studying the journeys, strategies, and philosophies of iconic business figures, students gain a deeper appreciation for the complexities and nuances of leadership and entrepreneurship. They learn not only from successes but also from failures and challenges encountered by these business legends, thus preparing them to navigate similar situations in their professional lives.

Course Pedagogy

The course will emphasize self-learning and active classroom interaction based on students' prior preparation. The course instructor is expected to prepare a detailed session-wise schedule, showing the topics to be covered, the reading material and case material for every session. Wherever the material for any session is drawn from sources beyond the prescribed text-book, reference books, journals and magazines in the library, or from websites and other resources not accessible to the students, the course instructor should make the material available to the students well in advance, so that the students can come prepared for the classes. The pedagogical mix will consist of classroom sessions, assignments, presentations, management exercises or games/simulations or activities and student feedback.

Course Outline

Module Number	Title of the Module	Contact Hours
1	An Illustrated History of Indian Enterprise	10
2	The Pioneers	10
3	Exemplary Business Icons	10
Total Contact Hours		30

Course Syllabus

Module 1: An Illustrated History of Indian Enterprise

10 hours

Origins of Indian Enterprise from Ancient Times to 1947; Trade and Commerce in Early India; Trade and Merchants in Mugal India; The Indian Merchants of Astrakhan; Indian Enterprise Since Independence – From Trade to Industry; India Inc. –Policy Impact on Business (1947-2012); Multinationals in India –A Dynamic Perspective.

Module 2: The Pioneers

10 hours

Life of developers of business; JRD Tata, G D Birla, Steve Jobs, Dhiru Bhai Ambani, Verghese Kurien, Bill Gates, William Bernbach, etc.

Module 3: Exemplary Business Icons

10 hours

The Exemplary CEOs: Knowing the classic CEOs like- Ratan Tata, Rahul Bajaj, Jeff Wenier, Mukesh Ambani, Mark Zuckerberg, Venu Srinivasan, K V Kamath,, Bob Iger, Nandan Nilkeni, Larry Page and many more; The Business Icons: Learning from the lives of Business Icons such as- Luxmi N Mittal, N R Narayana Murthy, Azim H Premji, Sunil Mittal, Kumar Manglam Birla, T S Kalyanraman, Women Business Leaders: Understanding the stories of Women Business Leaders like- Kiran Mazumdar Shaw, Indra Nooyi, Debbi Fields, Hillary Clinton, Oprah Winfrey, Naina Lal Kidwai, Chanda Kochhar, Amrita Patel

Course Evaluation

BMG602: GRAND PROJECT YEAR 3, SEMESTER – VI

Credit	Component	Instruction/ Contact/ Practical Hours (Per Week)	Instruction/ Contact/ Practical Hours (Per Course)
06	Practical	06	90

Rationale

The Grand Project serves as a culmination of the academic journey for BBA students, offering a comprehensive opportunity to apply theoretical knowledge, research skills, and critical thinking abilities to a real-world business problem or phenomenon. The rationale behind implementing the Grand Project is multifaceted and encompasses several key objectives. Through the process of conceptualizing, designing, and executing a research project, students develop essential research skills such as problem identification, literature review, research methodology selection, data collection, analysis, and interpretation. These skills are instrumental in fostering a research-oriented mindset and preparing students for future professional endeavors.

Course Pedagogy

The course will emphasize self-learning and active classroom interaction based on students' prior preparation. The course instructor is expected to prepare a detailed session-wise schedule, showing the topics to be covered, the reading material and case material for every session. Wherever the material for any session is drawn from sources beyond the prescribed textbook, reference books, journals and magazines in the library, or from websites and other resources not accessible to the students, the course instructor should make the material available to the students well in advance, so that the students can come prepared for the classes. The pedagogical mix will consist of classroom sessions, assignments, presentations, management exercises or games/simulations or activities and student feedback.

BM605: TOURISM AND HOSPITALITY- 2
YEAR 3, SEMESTER – VI

Credit	Component	Instruction/ Contact/ Practical Hours (Per Week)	Instruction/ Contact/ Practical Hours (Per Course)
02	Practical	02	30

Rationale

The Tourism and Hospitality industry is a dynamic and growing sector that significantly contributes to the global economy. This course aims to provide a comprehensive understanding of the principles and practices essential for success in this field. This course will equip students with the knowledge and skills required to manage and operate various segments within the tourism and hospitality industry, including tourism planning, airline management, front office operations, and marketing strategies. Through this syllabus, students will be prepared to meet the challenges of the industry and excel in their careers. Decision Making is one of the vital skill which a manager come across while handling the routine tasks. Along with the decision making, a Manager is expected to have certain abilities which involves critical and logical way of thinking. This course Logical Analysis and Decision Making will accustom students to analyze day-to-day tasks and will develop students as managers with independent, self-directed thinking.

Course Pedagogy

The course will emphasize self-learning and active classroom interaction based on students' prior preparation. The course instructor is expected to prepare a detailed session-wise schedule, showing the topics to be covered, the reading material and case material for every session. Wherever the material for any session is drawn from sources beyond the prescribed text-book, reference books, journals and magazines in the library, or from websites and other resources not accessible to the students, the course instructor should make the material available to the students well in advance, so that the students can come prepared for the classes. The pedagogical mix will consist of classroom sessions, assignments, presentations, management exercises or games/simulations or activities and student feedback.

Course Outline

Module Number	Title of the Module	Contact Hours
1	Principles and Practices of Tourism	10
2	Front Office Management	10
3	Airline and Tourism Marketing	10
Total Contact Hours		30

Course Syllabus

Charotar University of Science and Technology (CHARUSAT)
Faculty of Humanities (FoH)
Semester-VI
HS132.02 D: CONTRIBUTORY PERSONALITY DEVELOPMENT

Credits and Hours:

Teaching Scheme	Theory	Practical	Tutorial	Total	Credit
Hours/week	--	02	--	02	02
Marks	--	100	--	100	

Pre-requisite courses:

- Communication and Soft Skills

Objectives of the Course:

- Become familiar with basic concept of personality and personality development
- Understand personality development theories and strategies
- Evaluate one's personality and inculcate traits of an assertive personality
- Develop an assertive personality
- Develop life skills and required management traits
- Enhance contributory personality for academic and career success

Outline of the Course:

Sr. No.	Title of the unit	Minimum number of hours
1.	Concept of Personality	06
2.	Soft Skills and Personality Development	08
3.	Developing Contributory Personality	06
4.	Life skills and Personality Development	06
5.	Contemporary Issues in CPD	04
	Total hours (Theory) :	--
	Total hours (Practical) :	30
	Total hours :	30

Detailed Syllabus:

1.	Concept of Personality	06 Hours	20%
	Meaning of Personality, Types of Personality, Factors contributing to Personality, Personality Traits, Personality Profiling		
2.	Soft Skills and Personality Development	08 Hours	26%
	Positive Thinking and Mind Set, Leadership, Assertiveness and Negotiation Skills, Self-Management, Interpersonal Skills, Being a Team Player		
3.	Developing Contributory Personality	06 Hours	20%

	Concept of Contributory Personality, Characteristics of a Contributor, The Contributor's Vision of Success & Career, The Scope of Contribution in a field, Embarking on the Journey to Contributor ship, Developing Contributor Personality, Reviewing Some Contributors Personalities		
4.	Life skills and Personality Development	06 Hours	20%
	Concept of life skills, Self-awareness, Empathy, Decision Making, Problem Solving		
5.	Contemporary Issues in CPD	04 Hours	14%
	Contemporary Trends and Practices in Contributory Personality Development, Case Study & Presentations

BMG622: HUMAN RESOURCE ANALYTICS
YEAR 3, SEMESTER – VI

Credit	Component	Instruction/ Contact/ Practical Hours (Per Week)	Instruction/ Contact/ Practical Hours (Per Course)
04	Theory	04	60

Rationale

This course will demonstrate that students have basic skills in managing and running HR Analytics functions successfully in an organization. This class will make extensive use of Excel and the Data Analysis to ascertain that students can use the Data Analysis tools. Decision Making is one of the vital skill which a manager come across while handling the routine tasks. Along with the decision making, a Manager is expected to have certain abilities which involves critical and logical way of thinking. This course Logical Analysis and Decision Making will accustom students to analyze day-to-day tasks and will develop students as managers with independent, self-directed thinking.

Course Pedagogy

The course will emphasize self-learning and active classroom interaction based on students' prior preparation. The course instructor is expected to prepare a detailed session-wise schedule, showing the topics to be covered, the reading material and case material for every session. Wherever the material for any session is drawn from sources beyond the prescribed text-book, reference books, journals and magazines in the library, or from websites and other resources not accessible to the students, the course instructor should make the material available to the students well in advance, so that the students can come prepared for the classes. The pedagogical mix will consist of classroom sessions, assignments, presentations, management exercises or games/simulations or activities and student feedback.

Course Outline

Module Number	Title of the Module	Contact Hours
1	Introduction to Human Resource Analytics	08
2	Workforce Analytics	12
3	Analytics for Employee Life Cycle Using MS Excel	10
4	Descriptive Statistics in HR	10
5	Predictive & Prescriptive Analytics in HR	12
6	Contemporary Issues	08
Total Contact Hours		60

Course Syllabus

Module 1: Introduction to Human Resource Analytics **08 hours**

HR Analytics – Basics, Basics of Statistics, Framework for Problem Solving, Define Problem, Understanding, HR Data, Importance of Data, Types and Scales of Data, Methods of Capturing, Data, Data Examination & Purification, Critical Stages of Employee Life Cycle.

Module 2: Workforce Analytics **12 hours**

Models of HR Analytics, HR Metrics, Types of Job Evaluation - Concepts and Metrics, Types of Job Redesign - Concepts and Metrics

Module 3: Analytics for Employee Life Cycle Using MS Excel **10 hours**

HR Analytics for Employee life cycle using MS Excel, HR Analytics for, Recruitment & Selection, Training & Development, Performance Appraisal, Talent Management, Employee Engagement, Compensation Management, Expatriate Management.

Module 4: Descriptive Statistics in HR **10 hours**

Overview of Tools for HR Analytics, MS Excel, Descriptive Analytics in HR, HR Dashboards using MS Excel, Slicing and Dicing of HR Data using MS Excel Pivot Table, Applications of HR Data in MS Excel, Data Visualization for Key HR processes.

Module 5: Predictive & Prescriptive Analytics in HR **12 hours**

Predictive HR Analytics, Correlation, Linear and Multiple Regression, Factor Analysis and Cluster Analysis, Comparison of Means, Analysis of Variance for Manpower, Demographics, Employee Satisfaction, Training, Effectiveness, Prescriptive HR Analytics, Predictive vs Prescriptive HR Analytics, Future of HR Analytics.

Module 6: Contemporary Issues **08 hours**

Contemporary issues in HR Analytics to Solve HR Components using HR Analytical Skills and Software like MS EXCEL and PowerBI.

Course Evaluation**I. Continuous and Comprehensive Evaluation (30 Marks)**

Component	Marks
Quiz	80
Assignment/ Project/ Presentation	90
Online Course	60
Internal Examination	40
Participation	30
Total marks (CCE)	300

II. Semester End Evaluation (70 Marks):

- University Examination will be carried out at the end of the semester.
- Theory examination will be for 3 hours based on written paper for 70 marks.

Text Book:

1. Talya Bauer, Berrin Erdogan, David E. Caughlin and Donald M. Truxillo, Human Resource Management: People, Data, and Analytics, Sage Publication (Latest Edition)

Reference Books:

1. Tracey Smith, HR Analytics: The What, Why and How, Create space Independent Pub (Latest Edition)

Programme Outcomes: Upon successful completion of the course, students will be,

PO1	Analyze contemporary issues and apply management knowledge for resolution.
PO2	Practice effective communication and interpersonal skills.
PO3	Understand Global Perspectives and exhibit Cross-Cultural sensitivity.
PO4	Demonstrate Attitude for continuous learning and development.

Course Outcomes: Upon successful completion of the course, students will,

CO1	Understand Data/Analytics to complement important HR Management Decision making process.
CO2	Visualize & monitor insights using HR Analytics to take crucial business decisions.
CO3	Create HR Metrics and Apply HR analytic tools to various HR function related issues.
CO4	Understand organizational issues and Prepare appropriate analytical tools to make informed decisions
